Fiduciary Income Tax-Computation of 2005 Credit for Prior Year Minimum Tax. CREDIT FOR PRIOR YEAR MINIMUM TAX, FEDERAL FORM 8801, IS TO BE RECALCULATED FOR NEBRASKA FIDUCIARY INCOME TAX PURPOSES TO DETERMINE THE NEBRASKA CREDIT FOR PRIOR YEAR MINIMUM TAX.

Advice has been requested as to whether the credit for prior year minimum tax computed on Federal Form 8801 for a taxpayer's 2005 U.S. Fiduciary Income Tax Return, Federal Form 1041, must be recalculated in order to compute the Nebraska tax credit.

Section 77-2717 of the Nebraska Revised Statutes directs that the federal credit for prior year minimum tax be recomputed using the adjustments required by the Nebraska Revenue Act of 1967, as amended. Further, Nebraska Revenue Ruling 23-05-1 provides the adjustments for alternative minimum tax computations for Nebraska determinations. This ruling is to be used for purposes of calculating the Nebraska credit for prior year minimum tax.

The specific line entries and the required adjustments in recomputing the credit for prior year minimum tax for the 2005 Nebraska Fiduciary Income Tax Return, Form 1041N, are provided below. **Recalculate all total or computational lines to reflect adjustments made pursuant to this ruling.**

In completing the 2005 Federal Form 8801, use the amounts from the 2004 Federal Form 1041, Schedule I, and Federal Form 8801 recomputed for Nebraska pursuant to Revenue Rulings 23-04-1 and 23-04-2.

#### **2005 Federal Form 8801:**

##### Part I:

Line 4: Use the federal instructions for calculating the amount to enter on line 4, and follow Revenue Ruling 23-04-1 when completing any line 8 (tax-exempt interest or dividends) or line 24 (alternative tax net operating loss) entries on the 2004 Federal Form 1041, Schedule I.

Line 11: If Part III of Form 8801 was used to make the line 11 entry, exclude any capital gains in the calculation that were deducted on line 8 of the 2004 Nebraska Form 1041N as a special capital gains exclusion.

Line 12: Enter 0.

Follow federal instructions to recompute the net minimum tax on exclusion items through line 15 of the recomputed 2005 Federal Form 8801.

Multiply line 25 of the recomputed 2005 Federal Form 8801 by 29.6 percent (.2960). This result is to be entered on the Nebraska Fiduciary Income Tax Return, Form 1041N, as follows:

(a) Resident estates and trusts are to enter the result on line 15 and write in the phrase, "AMT Credit"; and

(b) Nonresident estates or trusts are to enter the result on line 29, Nebraska

Schedule I, and write in the phrase, "AMT Credit". Enter as a negative number, subtract from line 28, and enter difference on line 30.
