

LB 775 INDUSTRY GROUP DETAIL

Number of New Jobs Created

Table 11 shows the number of new full-time equivalent (FTE) employees at the projects as compared to the prior year. The amount shown in the columns for each individual year is the increase or decrease from the previous year and does not represent the total change from the base year.

The total column represents the full-time equivalent growth during the entitlement period for each project that has met the \$3 million investment and 30 full-time equivalent employees since the enactment of the Employment and Investment Growth Act, LB775.

A company is required to maintain a minimum of 30 FTE employee increase to avoid recapture. Please note:

- A company that previously showed an FTE employee increase of 80 could fall back to a 30 FTE employee increase without going into recapture. In this situation, the decrease of 50 FTE would be included in the current year column and the net increase of 30 would remain in the total column.
- If the company that previously showed an FTE employee increase of 80 ceased operations in Nebraska during the entitlement period, they would be in recapture. The decrease of 80 FTE would be included in the current year column and there would be zero FTE's represented in the total column.

This year Table 11 has two industry groups where the changes in FTE reported in 2006 as compared to the previous reported year are negative. There were companies in these industry groups which reported employment growth, however the overall industry totals of all companies reporting were a negative number. A company reporting a decline in employment would not be in recapture unless the full-time equivalent employment growth for the term of the project is below 30 FTE.
