

## LB 775 INDUSTRY GROUP DETAIL

### Number of New Jobs Created

Table 11 shows the number of new full-time equivalent (FTE) employees at the projects as compared to the prior year. The amount shown in the columns for each individual year is the increase or decrease from the previous year and does not represent the total change from the base year.

The total column represents the FTE employee growth during the entitlement period for each project that has met the \$3 million investment and 30 FTE employees since the enactment of the Employment and Investment Growth Act, LB 775.

A company is required to maintain a minimum of 30 FTE employees increase to avoid recapture. Please note:

- A company that previously showed an FTE employee increase of 80 could fall back to a 30 FTE employee increase without going into recapture. In this situation, the decrease of 50 FTE employees would be included in the current year column and the net increase of 30 would remain in the total column.
- If the company that previously showed an FTE employee increase of 80 ceased operations in Nebraska during the entitlement period, they would be in recapture. The decrease of 80 FTE employees would be included in the current year column and there would be zero FTE employee's represented in the total column.

This year Table 11 has one industry group where the changes in FTE employees reported in 2007 as compared to the previous reported year is negative. There were companies in this industry group which reported employment growth, however the overall industry totals of all companies reporting were a negative number. A company reporting a decline in employment would not be in recapture unless the FTE employment growth for the term of the project is below 30 FTE employees.

**Table 11** **Number of Jobs Created by Industry Group**  
**Full-Time Equivalent (FTE) Employees**

Industry Group	1988-2003*	2004	2005	2006	2007	Total
