Nursing Facility Skilled Nursing Facility Assisted-Living Facility

Does this facility accept Medicaid benefits? Yes No

If yes, complete the information below for the most recent three-year period from date the form is completed: The exemption percentage for each year in the most recent three-year period is equal to a facility's number of occupied Medicaid beds for a given year divide by the facility's total number of occupied bed for that year. The exemption percentage for each year is added together and divided by three to calculate the average percentage of occupied Medicaid beds over the most recent three year period. This number is the final exemption percentage that will be multiplied by the facility's property taxes to determine the facility's exemption amount.
