2024 Nebraska Financial Institution Voluntary Estimated Tax Payment Voucher and Worksheet Instructions

What's New

Financial Institution Tax and Limitation Rate Change (LB 754 [2023]). The financial institution tax rate for taxable year 2024 is reduced to \$.35 per \$1,000 of average deposits and the limitation amount is reduced to 2.85% of net financial income. The tax rate on average deposits and the limitation rate is based on the highest corporate rate which was reduced from 7.25% for 2023 to 5.84% for 2024.

Creating High Impact Economic Futures (CHIEF) Act (LB 1344). Effective January 1, 2025, the Community Development Assistance Act (CDAA) is replaced by the CHIEF Act. Under the CHIEF Act, individuals and entities that contribute to community betterment organization programs or projects certified for tax credit status by the Nebraska Department of Economic Development during a tax year are eligible for the nonrefundable credit. The credit for contributions made by an individual is equal to 100% of the contribution. The credit is equal to 50% of the contribution for all other contributors. **Contributions must be made after January 1, 2025.** Any unused credits may be carried forward to the next five tax years after the credit was first allowed.

LB 34 Special Session. LB 34 enacted in the 2024 special session created the School District Property Tax Relief Act. This act provides property tax relief for school district taxes directly on the property tax statement reducing property taxes before they are paid, instead of refunding taxes after they are paid.

For tax years beginning on or after January 1, 2024, the Form PTC will only be used to claim a credit for community college property taxes paid.

Important Information for All Filers

Period Covered by the Return. This voucher may be filed for the 2024 calendar year or fiscal year beginning in 2024.

A financial institution with a short taxable year (less than 12 months) may file a voucher for the short period. The voucher must be filed during the last month of operation and on or before the end of the short period. See:

- ◆ [Revenue Ruling 24-90-1: Financial Institution Tax – Filing Requirements of Short-Period Tax Returns](#); and
- ◆ [Revenue Ruling 24-91-1: Financial Institution Tax – Average Deposits of Short-Period Tax Returns](#).

Accounting Methods. The accounting method required by state and federal regulatory agencies must be used for Nebraska financial institution tax purposes. Income and expenses of a financial institution must be computed according to the requirements of its regulatory agencies.

Multistate Financial Institutions. Financial institutions that are subject to tax in more than one state must compute their tax liability based on the amount of average deposits connected with the financial institution's operations in Nebraska. These deposits equal the total deposits accepted at the financial institution's Nebraska offices, plus deposits solicited from Nebraska residents that are accepted at the financial institution's offices outside of Nebraska. The financial institution's limitation amount is computed using the portion of the net financial income that is apportioned to Nebraska using the property and payroll factors.
