Form 775P, Schedule III – Business Equipment Used in the Manufacturing or Processing of Agricultural Products

- For general information, read the instructions on the Claim for Nebraska Personal Property Exemption, [Form 775P](#).

Specific Instructions

Date Acquired. The date acquired is the date the owner acquired the equipment. For leased equipment, the date acquired is the date the lessor (owner) acquired the equipment.

Make/Description. Enter the make and description of the equipment. Include lease date, if the equipment is leased. To determine eligibility for exemption, this is the date the lessee took possession of the equipment and must be included.

Involved Directly in Manufacturing? Qualifying business equipment must be used directly in the manufacture or processing of agricultural or horticultural products. Enter “YES” if it is, or “NO” if it is not.

Actual Location of Equipment. Enter the address of the actual location where the equipment is principally stored and kept.

Quantity. Enter the quantity of equipment with the same acquisition date, model year, and description.

Nebraska Adjusted Basis. The Nebraska adjusted basis for business equipment used in the manufacturing or processing of agricultural products is the total purchase price (cost of placing the equipment in service) including, but not limited to costs for: delivery; installation; taxes; and fees. Enter the amount in whole dollars only.

Recovery Period. The recovery period is the period over which the value of the equipment will be depreciated for Nebraska property tax purposes. [Table 2](#), from the Nebraska Personal Property Return, includes a recovery period for personal property. [Neb. Rev. Stat. § 77-120](#).

Net Book Depreciation Factor. The net book depreciation factor is the percentage found in [Table 1](#), from the Nebraska Personal Property Return, for the appropriate depreciation factor for the recovery period and the year acquired. The depreciation factors are also listed in Neb. Rev. Stat. § 77-120.

Net Book Value. The net book value is the Nebraska adjusted basis cost of the equipment multiplied by the appropriate depreciation factor for the recovery period and the year acquired. Continue to report any property, even if it has a \$0 depreciation amount.

LINE 17. Enter the total of the net book value for all equipment listed on the page on line 17. If more than one page is used, total each page separately. Then, enter the total of all Schedule III pages on Form 775P, under the Summary of Schedule III – Business Equipment used in the Manufacturing or Processing of Agricultural Products.

Attach this schedule to the Form 775P.
