July 15, 2015

Senator Galen Hadley
Speaker of the Legislature
2103 State Capitol
Lincoln, NE 68509

Dear Speaker Hadley:

The Nebraska Department of Revenue (Department) is electronically submitting the 2014 Nebraska Tax Incentives Annual Report on the following programs:

- Nebraska Advantage Act;
- Nebraska Advantage Rural Development Act;
- Nebraska Advantage Microenterprise Tax Credit Act;
- Nebraska Advantage Research and Development Act;
- Employment and Investment Growth Act;
- Invest Nebraska Act; and
- Quality Jobs Act.

The 2014 Annual Report and annual reports issued since 1997 can be found on the Department’s website at revenue.nebraska.gov. An email has also been sent to all members of the Unicameral with a link to the 2014 Annual Report. Archived copies of reports for years older than 1997 may be requested from the Department.

If you have questions about this report, please contact Mary Hugo (mary.hugo@nebraska.gov) at 402-471-5790, or me (len.sloup@nebraska.gov) at 402-471-5604.

Sincerely,

Leonard J. Sloup
Acting Tax Commissioner

Nebraska Advantage Act
Reporting Requirements

Neb. Rev. Stat. § 77-5731 provides:

(1) The Tax Commissioner shall submit electronically an annual report to the Legislature no later than July 15 of each year. The Department of Revenue shall, on or before September 1 of each year, appear at a joint hearing of the Appropriations Committee of the Legislature and the Revenue Committee of the Legislature and present the report. Any supplemental information requested by three or more committee members shall be presented within thirty days after the request.

(2) The report shall list

(a) the agreements which have been signed during the previous calendar year,
(b) the agreements which are still in effect,
(c) the identity of each taxpayer who is party to an agreement, and
(d) the location of each project.

(3) The report shall also state, for taxpayers who are parties to agreements, by industry group

(a) the specific incentive options applied for under the Nebraska Advantage Act,
(b) the refunds allowed on the investment,
(c) the credits earned,
(d) the credits used to reduce the corporate income tax and the credits used to reduce the individual income tax,
(e) the credits used to obtain sales and use tax refunds,
(f) the credits used against withholding liability,
(g) the number of jobs created under the act,
(h) the expansion of capital investment,
(i) the estimated wage levels of jobs created under the act subsequent to the application date,
(j) the total number of qualified applicants,
(k) the projected future state revenue gains and losses,
(l) the sales tax refunds owed,
(m) the credits outstanding under the act,
(n) the value of personal property exempted by class in each county under the act,
(o) the value of property for which payments equal to property taxes paid were allowed in each county, and
(p) the total amount of the payments.

(4) In estimating the projected future state revenue gains and losses, the report shall detail the methodology utilized, state the economic multipliers and industry multipliers used to determine the amount of economic growth and positive tax revenue, describe the analysis used to determine the
percentage of new jobs attributable to the Nebraska Advantage Act assumption, and identify limitations that are inherent in the analysis method.

(5) The report shall provide an explanation of the audit and review processes of the department in approving and rejecting applications or the grant of incentives and in enforcing incentive recapture. The report shall also specify the median period of time between the date of application and the date the agreement is executed for all agreements executed by December 31 of the prior year.

(6) The report shall provide information on project-specific total incentives used every two years for each approved project. The report shall disclose

   (a) the identity of the taxpayer,
   (b) the location of the project, and
   (c) the total credits used and refunds approved during the immediately preceding two years expressed as a single, aggregated total.

The incentive information required to be reported under this subsection shall not be reported for the first year the taxpayer attains the required employment and investment thresholds. The information on first-year incentives used shall be combined with and reported as part of the second year. Thereafter, the information on incentives used for succeeding years shall be reported for each project every two years containing information on two years of credits used and refunds approved. The incentives used shall include incentives which have been approved by the department, but not necessarily received, during the previous two calendar years.

(7) The report shall include an executive summary which shows aggregate information for all projects for which the information on incentives used in subsection (6) of this section is reported as follows:

   (a) the total incentives used by all taxpayers for projects detailed in subsection (6) of this section during the previous two years;
   (b) the number of projects;
   (c) the new jobs at the project for which credits have been granted;
   (d) the average compensation paid employees in the state in the year of application and for the new jobs at the project; and
   (e) the total investment for which incentives were granted.

The executive summary shall summarize the number of states which grant investment tax credits, job tax credits, sales and use tax refunds for qualified investment, and personal property tax exemptions and the investment and employment requirements under which they may be granted.

(8) No information shall be provided in the report that is protected by state or federal confidentiality laws.
Nebraska Advantage Act
Summary Description

General Information

The Nebraska Advantage Act allows a taxpayer involved in a qualified business to earn and use tax benefits based on investment and employment growth. For a list of qualified business activities, see the Department’s website. There are six tiers that have varying requirements and benefits for investment and employment.

Application Information

An application must be filed with the Nebraska Department of Revenue (Department) for each project. The application date for the project will establish the base year and impact the investment and required wage level for the project, as well as the applicability of certain statutory provisions. A complete application must be filed to establish an application date. For applications filed on or after October 1, 2009, taxpayers must utilize E-verify to confirm that all newly-hired employees employed in Nebraska are legally able to work in the U.S., as required by Neb. Rev. Stat. § 77-5722.01. Each application is reviewed to ensure that the applicant is an eligible taxpayer, and that the plan relates to a qualifying business activity at interdependent locations.

For more information on filing an application under the Nebraska Advantage Act, see the Application Guide and the Nebraska Advantage Application.

Requirements by Application Level

Each of the tiers requires different investment and employment levels to be reached by the end of the attainment period. Refer to the table below for the minimum required levels for each tier. Within Tier 2, there are different combinations of requirements and benefits for data center or web portal projects. Within Tier 5, there are different combinations of requirements and benefits for data center, web portal, or renewable energy projects. Except where specifically stated, references to Tier 2 include Tier 2, Tier 2 Web Portal or Data Center (Tier 2WP/DC), and Tier 2 Large Data Center (Tier 2LDC); and references to Tier 5 include Tier 5, Tier 5 Renewable Energy (Tier 5RE), Tier 5 Web Portal or Data Center (Tier 5WP/DC), and Tier 5 Large Data Center (Tier 5LDC).

The increase in investment is the value of qualified property placed in service at the project after the date of application. Qualified property means any tangible property of a type subject to depreciation, amortization, or other recovery under the Internal Revenue Code of 1986, or the components of such property, that will be located and used at the project or at the residence of a teleworker working in Nebraska. Qualified property does not include aircraft, barges, motor vehicles, railroad rolling stock, watercraft, or property rented to another person.

The increase in employment is the number of new full-time equivalent (FTE) employees who meet the required wage level and work at the project, or on tasks interdependent with the project from the residence of the teleworker in Nebraska or a military installation in Nebraska. The number of new employees is calculated using the number of hours for which the employee was paid in the year. One FTE employee is equal to 40 hours per week for the entire year.

*The wage level varies by county. It is equal to the greater of 200% of the county average or 150% of the state average. The wage level listed in the table is 150% of the state average. Click here for Required Annual Wages by County for Tier 6.

**Tier 5 projects do not require new employment growth, but a reduction in FTEs will result in recapture of benefits.

Description of Time Periods

**Year (Neb. Rev. Stat. § 77-5720)**

For projects with an application date prior to September 6, 2013, year means the federal taxable year of the taxpayer.

For projects with an application date on or after September 6, 2013, year means calendar year.

**Base Year (Neb. Rev. Stat. § 77-5705)**

Except for a Tier 5LDC, the base year is the year immediately preceding the year during which the application was filed. For a Tier 5LDC project, the base year is the last year of the entitlement period for direct refunds for the Tier 2LDC project.

**Attainment Period (Neb. Rev. Stat. § 77-5727(1)(a))**

The attainment period is the number of years, including the year of application, within which the taxpayer must meet the minimum required levels of investment and employment.

- **Tiers 1, 3, and 6.** The taxpayer must attain the minimum required levels within five years.
- **Tiers 2, 4, and 5 (other than Tier 5LDC).** The taxpayer must attain the minimum required levels within seven years.
- **Tier 5LDC.** The taxpayer must attain the minimum required levels within four years after the end of the entitlement period for direct refunds for the Tier 2LDC project.
Entitlement Period (Neb. Rev. Stat. § 77-5708)

The entitlement period is the number of years during which the project may both earn and use credits. No credits are earned in a year when the project does not maintain the minimum required levels of investment or employment. The entitlement period begins the year the required investment and employment increases are met.

- **Tiers 1 and 3.** The entitlement period continues until the end of the sixth year after the year the required increases of investment and employment were met, or the ninth year following the year of application, whichever is earlier.
- **Tiers 2, 4, and 5.** The entitlement period continues until the end of the sixth year after the year the required increases of investment and employment were met.
- **Tier 6.** The entitlement period continues until the end of the ninth year after the year the required increases of investment and employment were met.

The entitlement period for property tax benefits may be different from the entitlement period for other benefits. A taxpayer applying under a tier with property tax benefits has a two-part agreement, one for a tier of lesser benefits, or subtier, and one for the selected tier. When the project attains the minimum required levels for the subtier, the project is eligible for all benefits of the subtier. When the project attains the minimum levels for the tier, the project is eligible for certain property tax benefits. For example, a taxpayer with a Tier 4 agreement may begin receiving benefits, other than a personal property tax exemption, once it has been verified the minimum levels of investment and employment for a Tier 2 (subtier) project have been met.

Carryover Period (Neb. Rev. Stat. § 77-5726(1)(e))

The carryover period starts after the end of the entitlement period. No additional credits are earned during the carryover period.

- **Tiers 1 and 3.** Credits may not be carried over more than nine years after the year of application.
- **Tiers 2 and 4.** Credits may not be carried over more than 14 years after the year of application.
- **Tier 6.** Credits may not be carried over more than one year past the end of the entitlement period.

Description of Available Tax Benefits

Direct Refund of Sales and Use Taxes (Neb. Rev. Stat. § 77-5725(2))

A direct refund is a refund of Nebraska and local sales and use taxes paid on the purchase or lease of qualified property for use at the project, or on the purchase or lease of an aircraft for use in connection with the project, which is placed in service during the attainment or entitlement period (the aircraft may not be used to transport an elected official, or for fundraising for an elected official). For Tier 1 projects, only 50% of the sales and use taxes paid are eligible for refund.
Qualified property is any tangible property of a type subject to depreciation, amortization, or other recovery under the Internal Revenue Code of 1986, or the components of this property, that will be located and used at the project or at the residence of a teleworker working in Nebraska. Qualified property does not include aircraft, barges, motor vehicles, railroad rolling stock, watercraft, or property that is rented to another person.

**Investment Credit (Neb. Rev. Stat. § 77-5725(5)-(7))**

The investment credit is a credit equal to 3% (Tier 1), 10% (Tiers 2 and 4), or 15% (Tier 6) of the investment made in qualified property at the project during the attainment and entitlement periods. The credit on qualified property placed in service, from date of application through the end of the year in which the minimum required levels are met, is earned in the qualification year. Credits are also earned on qualified property placed in service in other years during the entitlement period.

**Compensation Credit (Neb. Rev. Stat. § 77-5725(3)-(4))**

Tiers 1, 2, 3, and 4. In each year of the entitlement period, the compensation credit is computed as follows:

\[
\text{(number of new employees)} \times \text{(average annual wage of new employees)} \times \text{(credit percentage)} = \text{compensation credit}
\]

The number of new employees at the project is calculated using two different methods and is the lesser of: (1) the FTEs at the project during a year in excess of the number of base-year FTEs; or (2) the number of new FTEs.

A new employee is an employee hired after the base year or transferred into Nebraska after the base year who earns the required wage. The number of FTEs is calculated using the number of hours paid in the year. One FTE employee is equal to 40 hours per week for the entire year.

Average annual wage of new employees means the compensation subject to income tax withholding paid to new employees at the project divided by the number of FTEs that earned the compensation. For projects with an application on or after July 15, 2010, the average annual wage of new employees means the compensation subject to Medicare tax paid to new employees at the project divided by the number of FTEs that earned the compensation.

The credit percentage varies by tier and the average annual wage of new employees.

- **Tiers 1, 2, 3, and 4.** In each year of the entitlement period, the compensation credit ranges from three percent to six percent of the compensation attributable to new FTEs, depending on the average annual wage of the new FTEs.
- **Tier 6.** In each year of the entitlement period, the compensation credit is equal to ten percent times the compensation of all non-base year employees, excluding any compensation in excess of $1 million paid to any one employee during the year.

**Personal Property Tax Exemption (Neb. Rev. Stat. § 77-5725(8))**

Tiers 4 and 6. A taxpayer may claim a personal property tax exemption on the following types of property acquired after the date of application:

- Turbine powered aircraft (the aircraft may not be used to transport an elected official, or for fundraising for an elected official);
- Computer systems and specific peripherals that require environmental controls of temperature and power;
• Business equipment involved directly in the manufacturing or processing of agricultural products; and
• Distribution facility equipment used to store and move product.

A Tier 6 taxpayer may also claim a personal property tax exemption on any other personal property at the project.

Turbine powered aircraft may be exempted from the first January 1 following the date of acquisition through the ninth December 31 after the first year the other types of property qualify for the exemption.

The other types of personal property may be exempted from the first January 1 following the end of the year during which the required levels were exceeded through the ninth December 31 after the first year any property, other than the aircraft, qualifies for the exemption.

**Tiers 2LDC and 5LDC.** A taxpayer may claim a personal property tax exemption on the following types of property acquired after the date of application:

• Turbine powered aircraft (the aircraft may not be used to transport an elected official, or for fundraising for an elected official);
• Computer systems and specific peripherals that require environmental controls of temperature and power;
• Business equipment involved directly in the manufacturing or processing of agricultural products; and
• Distribution facility equipment used to store and move product.

A Tier 2LDC taxpayer may also claim a personal property tax exemption on any other personal property at the project.

Turbine powered aircraft may be exempted from the first January 1 following the date of acquisition through the end of the exemption period for the other types of property which qualify for the exemption.

The other types of personal property at the project may be exempted for the earlier of:

• The January 1 preceding the first claim for exemption through the ninth December 31 after the first claim for exemption is approved; or
• The first January 1 following the end of the year the required levels were exceeded through the ninth December 31 after the first year any property, other than the aircraft, qualifies for the exemption.

**Tiers 2WP/DC and 5WP/DC.** A taxpayer may claim a personal property tax exemption on the following types of property acquired after the date of application:

• Computer systems and specific peripherals that require environmental controls of temperature and power.

The property may be exempted from the first January 1 following the end of the year during which the required levels were exceeded through the ninth December 31st after the first year the property qualifies for the exemption.

**Sales and Use Tax Refund Using Investment and Compensation Credits (Neb. Rev. Stat. § 77-5726(1)(c))**

This is a refund of Nebraska and local sales and use taxes paid to the applicant on otherwise non-refundable purchases. For Tiers 1, 2, 3, and 4, the purchases must be used at the project. For Tiers 2LDC and 6, the purchases may be used anywhere in Nebraska. The tax credits used for a sales and use tax refund must be earned in a prior year.
Income Tax Offset or Refund Using Investment and Compensation Credits (Neb. Rev. Stat. §§ 77-5726(1)(a) and 77-5728(1)(a))

Tax credits may be used to reduce the income tax liability of the taxpayer's entire unitary group. The tax credits used for an income tax offset or refund may be earned in a prior year or the current year. For projects with an application date on or after September 6, 2013, tax credits may be used beginning with the taxable year which includes December 31 of the year the required minimum levels were reached.

Tax credits earned by a partnership, S corporation, limited liability company, cooperative, limited cooperative association, or an estate or trust may be distributed in the same ratio as ordinary income. The recipient of the distributed credit may use the tax credit to reduce their income tax liability from the year of distribution through the end of the carryover period. For projects with an application date on or after September 6, 2013, the last year for which tax credits may be used is the taxable year which includes December 31 of the last year of the carryover period. Any decision on how part of the tax credit is applied will not limit how the remaining tax credit could be applied.

Income Tax Withholding Offset or Refund Using Compensation Credits (Neb. Rev. Stat. § 77-5726(1)(b))

- **Tiers 1, 2, 3, and 4.** Compensation credits may be used to receive a refund of, or to reduce, the taxpayer's income tax withholding liability attributable to the number of new FTEs at the project, excluding compensation in excess of $1 million paid to any one employee.
- **Tier 6.** Compensation credits may be used to receive a refund of, or to reduce, the taxpayer's income tax withholding liability attributable to all employees at the project other than base-year employees, excluding compensation in excess of $1 million paid to any one employee.

The compensation credits used to offset or refund an income tax withholding liability must be earned in a prior year.

Real Property Tax Reimbursement Using Investment and Compensation Credits (Neb. Rev. Stat. § 77-5726(1)(d))

**Tier 2LDC.** Tax credits may be used for a reimbursement from the state equal to real property taxes paid, after the year the application was filed through the end of the carryover period, on investment made after the date of application.

**Tier 6.** Tax credits may be used for a reimbursement from the state, per Neb. Rev. Stat. § 77-5725(1)(d), equal to real property taxes paid, after the year the project met the minimum required levels of investment and employment through the end of the carryover period, on investment made after the date of application.

The tax credits used for a real property tax reimbursement must be earned in a prior year.

Audit and Review Procedures

Audit (Neb. Rev. Stat. § 5725(2))

When the taxpayer notifies the Department that it has reached the qualification levels, an audit is conducted to confirm the attainment of the minimum levels of investment and employment, verification of the credits earned in the attainment period, and the accuracy of the initial direct sales and use tax refund. After the audit is completed, the Department issues a letter informing the taxpayer of the outcome of the audit. The Department reviews annual filings for claimed tax benefits for reasonableness. The Department conducts periodic maintenance audits to ensure that projects have continued to maintain at least the minimum levels of investment and employment necessary for the selected tier, and to verify the propriety of the credits reported and benefits received. The confirmation of attainment of the minimum required levels of new investment and employment required for the property tax exemption may be done as part of the original qualification audit for the subtier, or as part of a maintenance audit of a subsequent year.

During the entitlement and carryover periods, the taxpayer may file claims with the Department for refunds of sales and use taxes paid during the attainment, entitlement, and carryover periods. The sales and use taxes paid during the attainment period may only be requested after the Department has confirmed that the project has attained the minimum required levels, and the refund is limited to sales and use taxes paid on qualified property used at the project and aircraft used in connection with the project. The review of the claims may involve testing of certain transactions based on dollar scopes or issues.

The taxpayer must file a claim for the personal property tax exemption on or before May 1 with the Tax Commissioner, on Nebraska Advantage Act Claim for Nebraska Personal Property Exemption, Form 312P, with a copy of the form filed with the county assessor in which the property is located. The Department determines whether the taxpayer is eligible for the exemption based on whether or not the required levels of
investment and employment have been met, and whether or not the property falls within the classes of personal property eligible for exemption.

A Tier 2LDC or Tier 6 taxpayer may elect to use tax credits for a reimbursement of property taxes paid on real property purchased or leased at the project. Prior to approving the reimbursement, the Department will confirm the required payment was made to the county.

The taxpayer or the recipient of a distributed credit may file Nebraska income tax returns claiming the use of tax credits as an offset of all, or a portion, of the taxes due. The taxpayer or the recipient of a distributed credit may also file amended returns to receive a refund of income taxes previously paid. The Department will review and approve the tax credit usage.

The taxpayer files Nebraska income tax withholding returns claiming the use of compensation credits as an offset of all, or a portion, of the taxes due. The taxpayer may also file amended returns to receive a refund of income tax withholding previously paid. The Department will review and approve the compensation credit usage. The Department also reviews or audits the information to ensure that compensation credits were only used as an offset against the income tax withholding attributable to the appropriate employees.

Recapture is a reduction in benefits when the minimum levels of investment or employment are not maintained for all years during the entitlement period. For each year the levels are not maintained, the taxpayer cannot earn new tax credits or claim direct refunds of sales and use tax for investment made during the year. The Department also assesses a portion of benefits already received and retains a portion of subsequent tax offsets or refunds to recapture the unearned benefits.

If a project in a tier eligible for property tax exemptions does not maintain the minimum investment and employment levels, the taxpayer owes recapture of property tax exemptions already received, and loses one year at the end of the exemption period for each year the project did not maintain the required levels. If the project does not meet the minimum investment and employment levels, the taxpayer owes recapture of any property tax exemptions received in the attainment period.

The Department also recaptures any refunds or reductions in tax to which the taxpayer was not entitled.
Nebraska Advantage Act
Agreements Signed in 2014 and Cumulative between 2007 and 2014

Reporting Required by Neb. Rev. Stat. § 77-5731(2)

In the application, each company provides an estimate of investment that will be made and the new full-time equivalent (FTE) employees that will be employed at the project. At the time of application, some companies may have just stated the minimum planned investment and employment required for the tier. Actual investment and employment may be different than the estimate. The project may far exceed the minimum; it may only meet the required levels of the subtier; or it may fail to meet the minimum required levels of the tier or subtier. A list of all Nebraska Advantage Act (Act) applications which have been filed is included on the Department's website and updated quarterly.

Beginning with applications filed on or after September 6, 2013, the Tax Commissioner must approve or deny an application within 180 days after the date of the application. The 180-day period is tolled from the time the Tax Commissioner makes a request for additional information or clarification to the time the requested information or clarification is received from the taxpayer. The taxpayer and the Tax Commissioner may also agree to extend the 180-day period. If the Tax Commissioner fails to make a determination within the 180-day period, the application is deemed to be approved. See Neb. Rev. Stat. § 77-5723(5).

Neb. Rev. Stat. § 77-5723(6) requires that the Tax Commissioner prepare and mail a written agreement to the taxpayer for the taxpayer's signature within 180 days after the application is approved. The application, and all supporting documentation, to the extent it has been approved, is considered a part of the agreement. The agreement must state:

1. The levels of employment and investment required by the Act for the project;
2. The time period under the Act in which the required levels must be met;
3. The documentation the taxpayer will need to supply when claiming an incentive under the Act;
4. The date the application was filed; and
5. A requirement that the company annually update the Department on any changes in plans or circumstances which affect the timetable of sales tax refunds as set out in the application. If the company fails to comply with this requirement, the Tax Commissioner may defer any pending sales tax refunds until the company does comply.

Sample agreements for each tier are available on the Department’s website.

Under Neb. Rev. Stat. § 77-5731(2), the reporting requirements for agreements include: the agreements which have been signed during the previous year; the agreements which are still in effect; the identity of each taxpayer who is party to an agreement, and; the location of each project. The planned investment and employment reflected in the table was included on the applications and is subject to disclosure under Neb. Rev. Stat. § 77-5723(2)(e).

Nebraska Advantage Act
Summary of Qualified Project Activity

Reporting Required by Neb. Rev. Stat. § 77-5731(3)

This table below summarizes the activity for projects that have completed a qualification audit, which confirms the attainment of required levels of investment or employment. The data reported in this table is a subset of the information reported in Summary of Investment and Employment by Applicants with Active Signed Agreements, by Industry table. The data is reported based on the year that the Department processes the filing or claim for benefits.

Each yearly column represents the activity of companies that have completed a qualification audit as of the end of that year. For example, the category below, "Tax Credits Earned: Compensation Credits," reported in 2013 include compensation credits approved in 2013 for all 57 companies with a completed qualification audit as of the end of 2013 (including those companies that had a qualification audit between 2006 and 2012). If a qualification audit was issued in 2014, the amounts from that audit are reported in 2014 even though the audit may include compensation credits earned by the applicant for wages paid in 2013.

The category, "Number of Qualifying Projects (Cumulative)," reflects a running total of the number of projects for each year according to when qualification audits were completed and minimum levels were confirmed. For example, from 2006-2010, after audits were completed, 21 projects were confirmed as having met minimum levels and approved as eligible to receive benefits. An additional 12 projects were audited and approved in 2011 for a total of 33, and the 73 projects reflected in 2014 are the cumulative total from 2006 through 2014. Completed projects, which have exhausted or expired all tax benefits, are included in the cumulative total.

The category, "Property Tax Benefits: Value of Real Property Reimbursed," reflects the value of real property for which investment or compensation credits were used to obtain a reimbursement from the Department equal to real property taxes paid. To date, no projects have received a reimbursement of real property tax paid.

The category, "Increase in New Jobs at Qualifying Projects (FTE)," is not a running total, but the actual number of new jobs reported by the projects in each year. For example, from 2006-2010, the 21 projects added 2,860 new employees. In 2011, the 33 projects (three approved from 2006-2008, six approved in 2009, 12 approved in 2010, and 12 approved in 2011) added 1,219 additional new employees. The number of new jobs reported for the year is the net number for all projects reporting. The decline in number of new jobs reported by one project is netted against the increase in the number of new employees. Generally, the largest increase in FTEs will occur at the beginning of a project as new employees are hired so that the project will attain at least the minimum required levels. Throughout the entitlement period, the increase in new FTEs may slow, stop, or reverse, but the project must continue to maintain the minimum required level of FTEs to avoid recapture.
# Summary of Qualified Project Activity

</table>

\(^1\) The Tax Credits Outstanding value equals the value of tax credits that have been earned by taxpayers that have completed a qualification audit less tax credits used, recaptured, and expired; and is an indication of tax credits which could potentially be used. This amount does not include other potential tax credits to be earned by applicants that have not completed a qualification audit. Historically, however, not all credits earned have been used, see Employment and Investment Growth Act Summary of Qualified Project Activity.

\(^2\) FTE = Full-time Equivalent
The amounts stated are the value of the personal property exempted, not the tax amount levied. To estimate the tax amount, the average tax rate by county can be found on the Department’s website.

Each project with a signed agreement is categorized by the primary business activity based on the North American Industry Classification System (NAICS), grouped by industry, and grouped by tier selected. The table does not include agreements that are no longer in effect because the agreement has been withdrawn or discontinued by the taxpayer, or the project has been completed.

These tables include the data reported for projects that have completed a qualification audit that confirms the attainment of minimum required levels of investment and employment. Each project is categorized by the principal business activity based on the North American Industry Classification System (NAICS), grouped by industry, and the information is reported by industry group. Industry groups containing information from less than three projects are combined with at least one other industry group to prevent disclosure of confidential information. In the following tables, the industry groups are combined as footnoted.

1The full title of this industry group is 333, 334, 335, 336, 337, 339 - Machinery; Computer and Electronic; Electrical Equipment, Appliance, and Component; Transportation Equipment; Furniture and Related Product; and Miscellaneous Product Manufacturing

2To maintain confidentiality, the following industry groups are combined in Other Manufacturing:

- 22, 23, 327 — Utilities, Construction, and Nonmetallic Mineral Product Manufacturing
- 311, 312 — Food and Beverage Manufacturing
- 321, 331, 332 — Wood Product, Primary Metal, and Fabricated Metal Product Manufacturing

3The full title of this industry group is 54, 56, 62, 81 — Professional, Scientific, and Technical; Administrative, Support, Waste Management, and Remediation; Health Care; and Other Services.

4To maintain confidentiality, the following industry groups are combined in Non-manufacturing:

- 42 — Wholesale Trade
- 48, 49 — Transportation and Warehousing Services; and
- 51 — Information Services.

5Recapture payments were received by the Department, however, to maintain confidentiality, they are not reported by industry group.

6FTE = Full-time equivalent.

7The estimated average wage of new jobs is calculated by multiplying positive FTE growth by the average wage of each project to determine the estimated compensation. The sum of estimated compensation for all projects in the industry group is divided by the total positive FTE growth of the industry group.

### Property Tax Benefits:

| $0 | $2,662,656,741 | $2,662,656,741 | $37,007,290 | $0 | $571,916,178 | $608,923,438 | $3,271,580,179 |

### Increase in New Jobs at Qualifying Projects (FTE)

| 2,685 | 1,556 | 4,241 | 468 | 1,236 | 4,579 | 6,292 | 10,523 |

### Estimated Average Wage of New Jobs

| $41,209 | $39,122 | $40,443 | $50,448 | $39,661 | $53,284 | $49,244 | $45,697 | $45,697 |

1. The full title of this industry group is 333, 334, 335, 336, 337.999 - Machinery, Computer and Electronic; Electrical Equipment, Appliance, and Component; Transportation Equipment; Furniture and Related Product; and Miscellaneous Product Manufacturing.
2. To maintain confidentiality, the following industry groups are combined in Other Manufacturing: 22, 23, 32, 37 — Utilities, Construction, and Nonmetallic Mineral Product Manufacturing; 311, 312 — Food and Beverage Manufacturing; 314, 322, 323, 325, 326 — Textile Product Mills, Paper Manufacturing, Printing and Related Support Activities, Chemical Manufacturing, and Plastics and Rubber Products Manufacturing; and 321, 331, 332 — Wood Product, Primary Metal, and Fabricated Metal Product Manufacturing.
3. The full title of this industry group is 54, 62, 81 — Professional, Scientific, and Technical; Administrative, Support, Waste Management, and Remediation; Health Care; and Other Services.
4. To maintain confidentiality, the following industry groups are combined in Non-manufacturing: 42 — Wholesale Trade; 48, 49 — Transportation and Warehousing Services; and 51 — Information Services.
5. To maintain confidentiality, the Tax Credits Recaptured from Credit Balances, Tax Credits Expired, Tax Credits Outstanding, and Recapture Repaid are reported in total, not by industry group.
6. The Tax Credits Outstanding value equals the value of tax credits that have been earned by participants less tax credits used and tax credit corrections; and is an indication of tax credits which could potentially be used. Historically, however, not all credits earned have been used, see Employment and Investment Growth Act Summary of Qualified Project Activity.
7. FTE = Full-time equivalent.
8. The estimated average wage of new jobs is calculated by multiplying positive FTE growth by the average wage of each project to determine the estimated compensation.

The sum of estimated compensation for all projects in the industry group is divided by the total positive FTE growth of the industry group.
Nebraska Advantage Act
Summary of Investment and Employment
by Applicants with Active Signed Agreements,
by Industry

Reporting Required by Neb. Rev. Stat. § 77-5731(3)(g) through (3)(i)

Each applicant with a signed agreement has agreed to report the project’s total investment, employment, and estimated wages paid to new employees. This table includes the data reported for both: (1) projects that have completed a qualification audit that confirmed the attainment of levels; and (2) projects that have not completed a qualification audit, regardless of whether the project may have attained the minimum levels. Until the Department has completed a qualification audit that confirms the required levels of investment and employment have been met, the project is not eligible for benefits and it is not included in the Summary of Qualified Project Activity or Benefits Approved, by Industry tables.

Some applicants with signed agreements did not submit a Nebraska Advantage Act Incentive Computation, Form 312N, in 2014. Most of these applicants have not completed a qualification audit and are not receiving any benefits. A qualified project will not receive additional benefits until it has submitted a Form 312N for all prior tax years. The year is considered to be in recapture and partial repayment of prior benefits is due if the proper filings are not provided to the Department.

Each project is categorized by the principal business activity based on the North American Industry Classification System (NAICS), grouped by industry, and the information is reported by industry group. Industry groups containing information from less than three projects are combined with at least one other industry group to prevent disclosure of confidential information. In the following table, the industry groups are combined as footnoted.

### Cumulative through 2014

1The full title of this industry group is 333, 334, 335, 336, 337, 339 — Machinery; Computer and Electronic; Electrical Equipment, Appliance, and Component; Transportation Equipment; Furniture and Related Product; and Miscellaneous Product Manufacturing.

2To maintain confidentiality, the following industry groups are combined in Other Manufacturing:

- 22, 23, 327 — Utilities; Construction; and Nonmetallic Mineral Product Manufacturing;
- 314, 322, 323, 325, 326 — Textile Product Mills; Paper Manufacturing; Printing/Related Support Activities; Chemical Manufacturing; Plastics and Rubber Products Manufacturing; and
- 321, 331, 332 — Wood Product, Primary Metal, and Fabricated Metal Product Manufacturing.

3The full title of this industry group is 54, 56, 62, 81 — Professional, Scientific, Technical; Administrative, Support, Waste Management, and Remediation; Health Care; and Other Services.

4To maintain confidentiality, the following industry groups are combined in Non-manufacturing:

- 42 — Wholesale Trade;
- 48, 49 — Transportation and Warehousing Services; and
- 51 — Information Services.

5Applicants who sign an agreement in the year of application do not have project activity to report until the following year. Even if all required Forms 312N are submitted, this total will not equal the number of active signed agreements.

6FTE = Full-time equivalent.

7The estimated average wage of new jobs is calculated by multiplying positive FTE growth by the average wage of each project to determine the estimated compensation. The sum of estimated compensation for all projects in the industry group is divided by the total positive FTE growth of the industry group.
The Executive Summary for the 2014 Nebraska Advantage Act Annual Report includes project-specific information for 30 projects. This is the sixth year that project-specific information has been reported, previous years were:

- 2013 - 26 projects;
- 2012 - 18 projects;
- 2011 - 15 projects;
- 2010 - 6 projects; and
- 2009 – 3 projects.

The table below reports information on investment growth and new jobs on a cumulative basis for these 30 projects. This means that information is accumulated in the table from the beginning of the project through the end of 2014. These 30 projects have, over the past two years in 2013 and 2014, used tax credits or have had refunds approved in the amount of approximately $62 million.

The details for each of these 30 projects are included on the next table that gives project-specific tax information.

Nebraska Advantage Act
Project-specific Tax Incentives Information

Reporting Required by Neb. Rev. Stat. § 77-5731(6)

Tax Credits Used and Refunds Approved in 2013 and 2014

In 2014, the report contains specific project information for 30 companies. Project-specific information is reported after a qualification audit and two years of activity have been completed. The specific information reported, in alternating years, is the name of the taxpayer, the project location, and the two-year aggregate of total credits used and refunds approved. The number reported includes direct sales and use tax refunds on qualified property and the total credits used. These credits include credits used to offset or refund a taxpayer’s corporation income tax, a distribution of credits to the owners of an applicant that is a flow-through entity, a sales and use tax refund, income tax withholding offset or refund, or a real property tax reimbursement. The personal property tax exemption is not included in the report.

The distribution of credits is reported in total when the distribution is made, even if the owners have not used all of the credits received. Recapture payments are not reported.

Completed projects, which did not receive benefits in the reporting period and have used or expired all carryover credits, are not included in the report.

Nebraska Advantage Act
Projected Revenue Gains and (Losses)
for Tax Years 2015-2025

Reporting Required by Neb. Rev. Stat. § 77-5731(3)(k) and (4)

The Nebraska Department of Revenue (Department), Research Section, for the Nebraska Advantage Act (Act) reports on the projected future amounts of:

- Direct refunds of sales and use tax (refunds);
- Investment tax credits earned;
- Compensation credits earned;
- Tax credits used for individual income tax;
- Tax credits used for corporation income tax;
- Tax credits used for sales and use taxes;
- Tax credits used for income tax withholding;
- Tax credits recaptured; and
- Tax credits that will expire.

The report also measures the potential revenue gains (losses) under the Act and the associated investment and economic job growth.

Section I outlines the process of estimating the parameters for tax credits and refunds, which are the building blocks for projecting future tax expenditures. Section I also briefly describes the estimation process for tax credits earned and the usage of the tax credits.

Section II discusses the model used by the Department to estimate the fiscal and employment impacts of the Act, and these estimates are presented in the table below.

I. Estimation of parameters for the projection of tax credits and refunds.

The Department utilizes several sources of data to produce the projection of tax credits and refunds. Although the Act is a relatively new tax incentive program, the Act has several years of data, which is being used to analyze the patterns of how companies earned and used tax credits. Consequently, the Department estimates the annual amount of tax credits earned and used using historical data from the Act, coupled with historical data from the Employment and Investment Growth Act (LB 775) and a regression model that uses macroeconomic variables.

To project the total amount of tax credits earned, and direct sales and use tax refunds, the Department utilizes some historical patterns of tax credits earned by companies under the Act. However, the erratic nature of tax credit use by companies during the first several years of the Act limits the Department’s ability to exclusively rely on Act data to forecast future tax credits. Consequently, a regression model, which relies on U.S. macroeconomic forecasts from IHS Economics, was used to estimate the total amount of tax credits earned and refunds granted. After projecting the total amount of earned tax credits, the Department split the projected total tax credits earned into investment tax credits and compensation credits based on historical Act data.

Examining the allocation of tax credits used between income tax liabilities and sales and use tax liabilities, the Department investigated the patterns of how the companies in each tier used their credits. The Department then used the parameters determined for each tier to establish the parameters. Most of the parameters were estimated using Act data from 2010 to 2014 — a period in which the program had progressively matured and the economy was, overall, in a stable condition. Using these parameters, the Department estimated the amounts of tax credits used for corporation income tax refunds, individual income tax liability, and sales and use tax refunds over the next ten years.
Using the correlation between compensation credits and income tax withholding, the Department estimated the amount of tax credits used for income tax withholding over the next ten years. The Department however does not have enough historical data from the Act to produce reliable parameters to estimate the amount of recaptured and expired tax credits. Consequently, the Department utilized data from LB 775 and assumed similar timing patterns in the amount of tax credits that companies allow to expire. The Department also used LB 775 to estimate the amount of recaptured tax credits.

Based on projected amount of earned and used tax credits, the table also presents tax credit balances and cumulative tax credit balances. The Department also forecasted the amount of investment based on the estimated earned tax credits.

II. Projecting revenue gains (losses) and associated economic job growth.

Tax incentive programs in Nebraska are designed to attract business investments—both domestically and abroad—with the goal of creating jobs and boosting economic growth in Nebraska. Tax incentive programs impact Nebraska's tax revenue in two ways. First, tax revenue is positively affected when businesses hire new employees and increase levels of investment, which enhance economic growth. Second, tax revenue is negatively affected when Nebraska directly foregoes part of the tax revenue from the businesses that are in the tax incentive programs. Thus, the overall fiscal impact of tax incentive programs can be positive or negative.

A computable general equilibrium (CGE) model uses actual economic data to estimate how an economy might react to changes in policy, technology, or other external factors. Using a CGE model, the fiscal impact of the program is estimated over the next ten years. These estimates are based on the forecasted value of the amount of total tax credits earned and total tax credits used, along with refunds under the Act. The forecasted values for tax credits earned and tax credits used are listed in the table below.

To analyze the fiscal impact of tax incentive programs, the dynamic Tax Revenue Analysis in Nebraska1 (TRAIN) model—a custom-built Nebraska CGE model—is used. The TRAIN model mathematically expresses the Nebraska economy with over 1,300 equations and a Social Accounting Matrix (SAM) database. It has 28 industrial sectors, two factor sectors, an investment sector, nine household sectors, 33 government sectors, and a rest-of-the-world sector.

The TRAIN model distinguishes between state government sectors to capture the sensitivity of state revenue and expenditure flows. It also calculates most tax impacts within the model, making additional, outside calculations unnecessary. This reduces the number of restrictions on the model and allows the Department's economists to deliver more informative results.

The critical assumption when constructing a CGE model is that the economy is in equilibrium at the beginning of the period. Therefore, the model is constructed so that its equilibrium replicates observed data in the base year. The data for TRAIN comes from the latest SAM values and parameters. The impact inputs for the model are the projected tax credits earned and direct sales and use tax refunds by companies in the tax incentive program.

The table below shows estimated revenue gains generated by new investment and employment over ten years. Since TRAIN simulated dynamic impact of investment, the revenue gains presented reflect the cumulative impact of the Act. The table also shows the net revenue gain (loss) over ten years.

The table provides two estimates of employment due to the Act. The first, labeled "Estimated New Jobs for Qualifying Tax Credits," is a yearly estimate of the number of full-time equivalent employees (FTE). This number can be thought of as an accounting number. It is the number of jobs that businesses use to justify the hiring of employees to qualify for the tax credits in the Act. It is important to note that some of these new jobs would be created regardless of the Act's tax credits due to growth in the company. Thus, the exact number of jobs that would be created without the existence of the Act is unknown.

The second estimate, labeled "Estimated Net Economic Job Increase (Decrease)," is estimated by TRAIN, and is an estimate of the net number of new jobs created as a result of the Act's program investment. The estimate of net economic jobs includes both direct and indirect employment in Nebraska. That is, it includes the jobs created as a direct result of the Act as well as the new jobs indirectly created throughout the Nebraska economy to support the new investment and direct employment due to the Act.

1A more detailed description of the TRAIN model is available here.

Summary of Tax Incentive Programs in Other States

Reporting Required by Neb. Rev. Stat. § 77-5731(7)

States offer many types of tax incentives for businesses. This report summarizes other states' tax incentives that are similar to the Nebraska model of granting tax incentives. For example, qualifying for tax incentives under the Nebraska Advantage Act is not dependent upon the location of a project in an enterprise zone or other limited geographic area. Thus, tax incentives that provide jobs or investment credits to businesses, but only to those who locate in a limited area, are not listed. States that offer tax incentives, but have different qualification levels depending upon geography, are listed provided that a project could qualify, at some level, in every part of the state.

States may also limit qualification for incentives to targeted industries. Nebraska does this, and the report lists those states where incentives are limited to targeted activities. Finally, Nebraska refunds the sales and use tax on qualified investments, but some states refund only a portion of the tax. These states are listed as having a refund. Some states have broader sales and use tax exemptions than Nebraska, but do not provide a refund of any taxes paid. Tax exemptions are outside the scope of this comparison, and tax incentives are not listed if they do not provide at least a partial refund of sales and use taxes paid on qualified investment.

Number of states which grant tax credits and exemptions

- **Job credit**: 37 states
- **Investment credit**: 30 states
- **Sales/use tax refund on qualified investment**: 29 states
- **Personal property tax abatement**: 19 states

Alabama

**Job credit**: Income Tax Capital Credit

- 50 new employees at headquarters and tourism attractions not in favored geographic regions
- 20 new employees at industrial, warehousing, or research activity projects, data processing centers, R & D facilities, renewable energy projects, utility-owned projects, and tourism destination projects in favored geographic areas
- 15 new employees at small business addition projects
- 5 new employees at projects in favored geographic regions, except headquarters facilities, warehousing, and tourism destination projects
- Employee hires are subject to base wage requirements

**Investment credit**: Income Tax Capital Credit

- $100 million for utility-owned projects producing electricity from alternative energy resources
- $20 million for tourism destination attractions not located in geographically favored regions
- $5 million for utility-owned projects producing electricity from hydropower and tourism destination attractions in favored geographic regions
- $2 million for all projects except utility-owned small business additions and projects in favored geographic regions
- $1 million for small business addition projects
- $500,000 for projects in favored geographic regions except headquarters facilities, warehousing, and tourism

Sales/use tax refund on qualified investment:

- There is no threshold or limiting investment for a new sales tax abatement project with the exception of warehousing projects and projects owned by utilities producing electricity, which are subject to the following thresholds —
  - $100 million in capital costs for facilities producing electricity from alternative energy sources
  - $5 million in capital costs for facilities producing electricity from hydropower
  - $1 million for warehousing projects in favored geographic areas, $5 million elsewhere
- The additional capital investment by an industry that is expanding their current facilities in Alabama must be equal to the lesser of —
  - 30% of the original cost of the currently existing industrial property
  - $2 million

Personal property tax abatement: Subject to the same qualifications as the sales tax abatement program

---

**Alaska**

**Job credit:** None

**Investment credit:** None

**Sales/use tax refund on qualified investment:** None

**Personal property tax abatement:** None

---

**Arizona**

**Job and investment credit:**

**Quality Jobs**

- In metro areas, at least 25 jobs must be created with a minimum capital investment of $5 million
- In rural areas, at least 5 jobs must be created with a minimum capital investment of $1 million
- Both programs require the jobs to pay 100% of the median county wage and 65% of health insurance costs for the employee

**Qualified Facility**

- Firm must make capital investment to establish or expand facility that devotes at least 80% of its space and payroll to manufacturing, R&D, or headquarters functions
- Must create net new jobs of which at least 51% are paid 125% of the state’s median wage
- Offers to pay at least 80% of health insurance premiums for all new net full-time employment
Sales/use tax refund on qualified investment: Firms eligible for the Computer Data Center Credit can get an exemption from the Transaction Business Tax when investing between $50 million and $250 million in a data center, depending on location.

Personal property tax abatement: None

Arkansas

Job credit: Advantage Arkansas Income Tax Credit

Credit on state income tax depends on region of state and payroll thresholds:

- Payroll threshold of $125,000 in Tier 1
- Payroll threshold of $100,000 in Tier 2
- Payroll threshold of $75,000 in Tier 3
- Payroll threshold of $50,000 in Tier 4
- Jobs must pay a wage equal or greater than Arkansas average wage
- Must be engaged in a specific industry as listed

Investment credit: ArkPlus is available in “highly competitive situations” that credits 10% of total investment to state income tax liability by regional tier and level of payroll.

- Tier 1: Minimum investment of $5 million and minimum payroll of $2 million
- Tier 2: Minimum investment of $3.75 million and minimum payroll of $1.5 million
- Tier 3: Minimum investment of $3 million and minimum payroll of $1.2 million
- Tier 4: Minimum investment of $2 million and minimum payroll of $0.8 million

Sales/use tax refund on qualified investment:

Tax Back Sales and Use Tax Refund

- Investment of $100,000 qualifies for sales and use tax for building materials and taxable machinery and equipment associated with approved project

InvestArk

- Investment of $5 million at a single location in plant or equipment for new construction, expansion, or modernization established for at least two years to qualify for sales and use tax refund
- Must be in specified industry as listed

Personal property tax abatement: None
California

Job credit: The California Competes Tax Credit is based on the number of jobs created, amount invested, the extent of poverty in the area, and a number of other factors.

Investment credit: None

Sales/use tax refund on qualified investment: None

Personal property tax abatement: None

Colorado

Job credit: Job Growth Incentive Tax Credit available for businesses creating at least 20 new jobs with wages 110% of county average

Investment credit: None

Sales/use tax refund on qualified investment: A refund of sales and use tax available for purchases of qualified biotechnology research and development equipment

Personal property tax abatement: At the discretion of the city or county government

Connecticut

Job credit: None

Investment credit:

- Machinery and Equipment Expenditure Tax Credit allows for 10% credit for increased investment in machinery and equipment for companies with 250 or fewer employees, 5% credit for companies with 251 to 800 employees in CT
- 5% credit for fixed capital investment in tangible personal property

Sales/use tax refund on qualified investment: None

Personal property tax abatement: A property tax credit is available for 100% of the personal property tax owed on electronic data processing equipment
Delaware

Job and investment credit:

- New Economy Jobs Program – Employers can obtain up to 65% rebate on income tax withholding when adding at least 50 net new jobs with each having a minimum annual salary of $100,000
- The Job Creation Tax Credit – Eligible businesses that (1) are engaged in a qualified activity; (2) hire five or more qualified employees; and (3) make an investment of at least $200,000 ($40,000 per qualified employee) in a qualified facility

Sales/use tax refund on qualified investment: No sales tax

Personal property tax abatement: At the discretion of the city or county government

Florida

Job and investment credit:

- The Qualified Target Industry Tax Refund allows for tax refunds from $3,000 to $6,000 per job created depending on the industry, location, and salary provided for each job created
- The Capital Investment Tax Credit is available for specific industries that create at least 100 jobs and invest at least $25 million in capital costs
- The High Impact Performance Incentive Tax Credit is targeted toward clean energy, corporate headquarters, financial services, life sciences, semiconductor, and financial services sectors. Firms must create at least 50 new jobs and invest at least $50 million in capital investment. R&D firms must create 25 new jobs and invest $25 million

Sales/use tax refund on qualified investment: Included in Qualified Target Industry incentive

Personal property tax abatement: None

Georgia

Job credit:

- Firms creating jobs in specific industries can earn the Job Credit based on the following criteria:
  - In tier 1, 2 jobs must be created, which can offset 100% of income tax liability
  - In tier 2, 10 jobs must be created, which can offset 100% of income tax liability
  - In tier 3, 15 jobs must be created, which can offset 50% of income tax liability
  - In tier 4, 20 jobs must be created, which can offset 50% of income tax liability
  - Each credit can be carried forward ten years
- A firm creating jobs that pay higher-than-average wages may qualify for a Quality Jobs Tax Credit. The credit varies by the wage paid. Firms must create at least 50 jobs to qualify
**Investment credit:**

- Firms making qualified capital investments of at least $50,000 may qualify for an Investment Tax Credit.
- The size of credit depends on location by favored region and type of investment. Credits are applied to corporate income tax.
- The Optional Investment Tax Credits offer credits for firms in favored regions —
  - Tier 1: $5 million investment, 10% credit;
  - Tier 2: $10 million investment, 8% credit; and
  - Tier 3 or 4: $20 million investment, 6% credit.
- A Mega Project Tax Credit is available to firms with a minimum payroll of $150 million or makes a minimum investment of $450 million, and hires at least 1,800 net new employees.
- Companies meeting both requirements may claim a tax credit of $5,250 per job per year for the first five years of each net new position.

**Sales/use tax refund on qualified investment:** None

**Personal property tax abatement:** None

---

**Hawaii**

**Job credit:** None

**Investment credit:** None

**Sales/use tax refund on qualified investment:** None

**Personal property tax abatement:** Personal property not taxed

---

**Idaho**

**Job credit:** Businesses that hire new employees to fill newly-created positions may qualify for up to $3,000 for each new job created.

**Investment credit:**

- Idaho Business Advantage: $500,000 investment in new facilities and create at least 10 new jobs paying an average of $40,000 annually
- Firms that make qualifying new investments may earn an income tax credit offsetting up to 50% of their income tax liability.

**Sales/use tax refund on qualified investment:** Up to a 25% rebate on sales taxes paid on construction materials for new facilities.

**Personal property tax abatement:**

- In lieu of an investment tax credit, a two year exemption from property tax on qualified personal property is available only if a loss was incurred in the second preceding tax year in which the property was placed in service.
- County commissioners may authorize a full or partial property tax exemption when qualifying firms invest at least $3 million
- Large Business Property Tax Exemption – Businesses that invest at least $1 billion in capital improvements will receive a property tax exemption on all property in excess of $400 million in value per year
- Businesses that employ at least 1,500 people within an Idaho county may receive a property tax exemption on property values in excess of $800 million

### Illinois

**Job and investment credit:**

- The EDGE Program allows tax credits to firms who agree to make an investment of at least $5 million and create at least 25 jobs
  - For a company with 100 or fewer employees, the company must agree to make a capital investment of $1 million or create at least 5 full-time jobs in Illinois
- Qualification for a High-Impact Business Tax Credit requires that a business invest a minimum of $12 million in capital investment causing the creation of 500 full-time jobs, or an investment of $30 million causing the retention of 1,500 full-time jobs
  - Limited to coal mining, electrical generation, pollution control facilities, and wind energy production

**Sales/use tax refund on qualified investment:** Can be rewarded as part of the High-Impact Business Tax Credit

**Personal property tax abatement:** None

### Indiana

**Job credit:**

- The Headquarters Relocation Tax Credit allows a credit against state income tax liability for costs incurred in relocating the headquarters
- Annual worldwide revenue must be at least $50 million, and the corporation must have at least 75 employees in Indiana

**Investment credit:**

- The Hoosier Business Investment Tax Credit provides a credit against income tax based on an analysis of the economic benefits of the proposed investment and applicant must demonstrate net new jobs added
- The Economic Development for a Growing Economy Tax Credit provides tax credits for hires performing tasks not previously performed by the applicant in Indiana using similar criteria to judge eligibility

**Sales/use tax refund on qualified investment:** Refund of sales and use tax paid on R&D equipment only

**Personal property tax abatement:** None
**Iowa**

**Job credit:**
- The High Quality Jobs Program requires businesses to meet wage threshold requirements
- The size of the credit depends on the quality of the job, generosity of health insurance benefits, etc.

**Investment credit:**
- Refer to investment thresholds in High Quality Jobs Program
- Thresholds are bracketed by investments less than $100,000; $100,000 to $499,999; and $500,000 and over
- There is an additional threshold of $10 million or more

**Sales/use tax refund on qualified investment:** Sales tax refunds are associated with the High Quality Jobs Program with $100,000+ level of investment

**Personal property tax abatement:** At the discretion of the city or county government

---

**Kansas**

**Job credit:**
- Firms can retain income tax withholding by creating at least ten jobs within two years in urban areas and five new jobs elsewhere in the Promoting Employment Across Kansas program
- High impact projects that create at least 100 new jobs can retain a higher share of income tax withholding

**Investment credit:**
- The High Performance Incentive Program allows for a 10% corporate income tax credit
- Firms must invest at least $1 million in urban counties and $50,000 elsewhere

**Sales/use tax refund on qualified investment:** None

**Personal property tax abatement:** At the discretion of the city or county government

---

**Kentucky**

**Job and investment credit:**
- The Kentucky Business Investment program requires participants to create a minimum of 10 new jobs and invest a minimum of $100,000, and new jobs are subject to wage and benefit requirements
- The Kentucky Small Business Investment Credit Program provides for a tax credit to small businesses that hire at least one person and invest at least $5,000 in qualifying equipment
- The Kentucky Reinvestment Act provides tax credits to firms investing at least $2.5 million and maintaining 85% of the full-time employment level at the facility
Sales/use tax refund on qualified investment:

- Available to participants of the Kentucky Enterprise Initiative Act who invest at least $500,000 and the incentives for Energy Independence Act for energy production facilities with minimum investments ranging from $1 million to $100 million, depending on the energy source

**Personal property tax abatement:** None

---

**Louisiana**

**Job credit:** The Quality Jobs Program

- Must meet a minimum annual payroll threshold of $250,000 for firms with less than 50 employees
- Otherwise, employer must create a minimum of 5 net new jobs within 24 months of project start date
- Firms with 50 or more employees must meet a minimum annual payroll threshold of $500,000
- Reward is a cash rebate of 5% or 6% of annual gross payroll for up to 10 years
- Must be in favored industry, distressed region, or have 50% of sales out-of-state

**Investment credit:** None

**Sales/use tax refund on qualified investment:** None

**Personal property tax abatement:** The Industrial Tax Exemption allows a property tax exemption for industries in certain NAICS codes who engage in new capital investments in the state

---

**Maine**

**Job and investment credit:** The Jobs and Investment Tax Credit allows employers who invest $5 million and create 100 new jobs within two years to obtain up to $500,000 in tax credits to offset income tax liability

**Sales/use tax refund on qualified investment:** None

**Personal property tax abatement:** None

---

**Maryland**

**Job credit:**

- The Job Creation Tax Credit provides a $1,000 per-job tax credit to businesses that create new jobs, and $1,500 to businesses creating jobs in economically-distressed areas
- They must create at least 60 full-time jobs within 24 months, or 25 jobs in distressed areas
- The business must be in a specified industry

**Investment credit:** The Biotechnology Tax Credit is allowed to individuals or entities that invest at least $25,000 in a qualified Maryland biotechnology company
Sales/use tax refund on qualified investment: None

Personal property tax abatement: None

---

**Massachusetts**

**Job credit:**

- The Economic Development Incentive Program offers tax credits under the following programs –
  - Enhanced Expansion Projects require at least 100 new full time jobs retained for 5 years with substantial capital investment
  - The Job Creation Project requires firms to create at least 100 new full time jobs retained for 5 years
  - The Manufacturing Retention Project requires at least 25 new manufacturing jobs and/or at least 50 new full-time jobs retained for 5 years in a gateway community.

**Investment credit:** See above

Sales/use tax refund on qualified investment: None

Personal property tax abatement: None

---

**Michigan**

**Job credit:** None. Michigan reformed its tax incentive programs to eliminate job and investment targets

**Investment credit:** None

Sales/use tax refund on qualified investment: None

Personal property tax abatement: None

---

**Minnesota**

**Job credit:** None

**Investment credit:** Research and Development Tax Credit allows for a 10% tax credit for the first $2 million in investment, and 2.5% thereafter in excess of $2 million
Sales/use tax refund on qualified investment: Greater MN Job Expansion Program allows sales tax refunds on the purchase of qualified equipment if employment is increased 10%, compensation requirements are met, and participate in a traded sector.

Firms that invest $30 million in the first four years of a data center’s operation may qualify for a sales tax exemption.

Personal property tax abatement: At the discretion of the city or county government

Mississippi

Job credit:

- Jobs Tax Credit provides for tax credits for firms in certain industries who create jobs in certain regions of the state —
  - In Tier 1, 20 or more jobs must be created, and credit is 2.5% of payroll
  - In Tier 2, 15 or more jobs must be created, and credit is 5% of payroll
  - In Tier 3, 10 or more jobs must be created, and credit is 10% of payroll
  - Credit can offset up to 50% of state income tax liability

- The Advantage Jobs Incentive Program provides income tax withholding rebates to firms in certain industries hiring employees that pay above the average wage level of the county and provide basic health benefit plans
  - Qualified businesses that provide an average wage of 110% of the average county or state wage that creates 25 new fulltime jobs, or data and information processing firms that pay 100% of the average state or county wage and create 200 new jobs may qualify

Investment credit: The Manufacturing Investment Tax Credit requires existing participating manufacturers to invest $1 million in buildings and/or equipment and receive an investment tax credit equal to 5% of the eligible investment

Sales/use tax refund on qualified investment: The following industries may qualify for sales tax exemptions when given qualifications are met —

- Aerospace industries that create at least 100 full time jobs and invest at least $30 million
- Data centers involving 50 new jobs, $50 million in investment, with jobs paying 150% the average state wage
- New headquarters that create 20 new HQ jobs
- Clean Energy businesses that create 250 new full time jobs and invest $50 million

Personal property tax abatement: The Industrial Property Tax Exemption may be granted at the local level by county or municipal governments

Missouri

Job credit: The Missouri Works Program allows income tax withholding credits for new job creation – 10 jobs at 90% county average wage, 100 jobs at 120% average county wage, and 100 jobs at 140% average county wage
**Missouri**

**Investment credit:** The Missouri BUILD Program allows a tax credit for firms in eligible industries who invest a minimum of $15 million, or $10 million for an office industry, and create 500 jobs, or 200 new jobs for an “office industry” in a distressed location

**Sales/use tax refund on qualified investment:** Yes, non-manufacturing property purchased through Chapter 100 bonds is exempt from tax

**Personal property tax abatement:** None

**Montana**

**Job credit:** Through the New/Expanded Industry Credit, manufacturers who increase employment by 30% are eligible for a tax credit equal to 1% of the wages paid to new employees

**Investment credit:** None

**Sales/use tax refund on qualified investment:** No sales tax

**Personal property tax abatement:** Listed here

**Nevada**

**Job credit:** See below

**Investment credit:** See below

---

**Oklahoma**

**Job credit:**

- The Quality Jobs Program is open to manufacturers and some service firms with new payroll of $2.5 million or more.
  - A lower payroll threshold to $1.5 million is available for food processors and R&D projects.
  - Payroll threshold is eliminated for projects building on former Superfund sites.
  - The Small Employer Program allows small businesses with 90 or fewer employees to receive a 5% cash back incentive for seven years.

61
• 21st Century Quality Jobs requires the creation of 10 jobs that pay $94,000 or higher, depending on the county.
• Both programs require minimum wage and health coverage requirements.

**Investment credit:**

• The Investment/New Jobs Credit Package allows qualifying firms to choose the tax credit based on level of investment or new employees.
• Credit doubles in enterprise zones or if investment exceeds $40 million.
• Minimum investment is $50,000.

**Sales/use tax refund on qualified investment:** None.

**Personal property tax abatement:** None.

---

**Oregon**

**Job credit:**

• The Oregon Investment Advantage allows firms who set up operations in an eligible county and create at least 5 jobs in an industry that is “first of its kind” and does not compete with another firm in the area.
• The credit is against income tax liability.

**Investment credit:** None.

**Sales/use tax refund on qualified investment:** No sales tax.

**Personal property tax abatement:**

• Unfinished improvements to facilities may qualify for local property tax abatements.
• The Strategic Investment Program exempts a portion of large capital investments from property taxes.

---

**Pennsylvania**

**Job credit:** The Job Creation Tax Credit allows for a $1,000-per-job tax credit to create new jobs. Firms must create at least 25 new jobs or expand their workforces at least 20%.

**Investment credit:** None.

**Sales/use tax refund on qualified investment:** None.

**Personal property tax abatement:** None.
**Rhode Island**

**Job credit:** The Corporate Income Tax Reduction for Job Creation provides an incremental reduction in the corporate income tax rate that creates new employment:

- 0.20% for every 10 new jobs created for companies with fewer than 100 employees; and
- 0.20% for every 50 new jobs created for companies with more than 100 employees

**Investment credit:** Depends on the NAICS code of the business; no minimum threshold specified (High Performance Manufacturing Investment Tax Credit Investment Tax Credit for Non-manufacturing Firms)

**Sales/use tax refund on qualified investment:** None

**Personal property tax abatement:** None

**South Carolina**

**Job credit:** Unless a member of a particular NAICS industry, firms must create:

- 175 jobs at a single location;
- 100 jobs where average compensation is 1.5 times county or state average, whichever is lower;
- 50 jobs where average compensation is 2 times county or state average, whichever is lower; or
- 25 jobs at a single location where average cash compensation for jobs is 2.5 times county or state average, whichever is lower

To qualify for the Corporate Headquarters Tax Credit, a firm must hire 40 employees, and a personal property exemption for firms that create 75 headquarters jobs paying double the state per capita income.

**Investment credit:** Manufacturers locating or expanding in South Carolina may take a one-time credit when production equipment is purchased

**Sales/use tax refund on qualified investment:** Construction materials and technology intensive materials may qualify for exemptions in specified industries if $300 million is invested and at least 100 new jobs are created. Data centers may earn a sales tax exemption if $50 million is invested and 25 new jobs are created

**Personal property tax abatement:** None

**South Dakota**

**Job credit:** None

**Investment credit:** None

**Sales/use tax refund on qualified investment:** None

**Personal property tax abatement:** Personal property not taxed
Tennessee

**Job credit:** The Jobs Tax Credit allows a qualified business tax credits based on the number of jobs created in certain industries:

- $112,500 credit for 25 jobs
- $450,000 credit for 100 jobs
- $2,250,000 credit for 500 jobs
- $4,495,000 credit for 999 jobs
- $4,500,000 credit for 1,000 jobs

Also, the Integrated Supplier and Integrated Customer Tax Credit is extended to qualified businesses who invest $1 billion and create at least 500 jobs.

**Investment credit:** Industrial machinery purchases can earn the following tax credits:

- Less than $100 million — 1%
- $100 million — 3%
- $250 million — 5%
- $500 million — 7%
- $1 billion — 10%

**Sales/use tax refund on qualified investment:** Available to businesses who make a minimum capital investment of $100 million and at least 50 new jobs paying 150% of Tennessee’s average occupational wage

**Personal property tax abatement:** None

---

Texas

**Job credit:** None

**Investment credit:** None

**Sales/use tax refund on qualified investment:** The sales tax exemption for qualified data centers is available for operators who agree to create at least 20 new jobs and invest $200 million in the data center over five years

Utah

Job credit:

- The Industrial Assistance Fund requires firms to create at least 50 jobs in urban counties and pay 125% or urban county average wage or 100% of the rural county average wage
- Approval from local economic development authorities is required

Investment credit: Investment Tax Credit available for taxpayers purchasing a qualified interest in an eligible firm

Sales/use tax refund on qualified investment: None

Personal property tax abatement: None

Vermont

Job credit: Vermont Employment Growth Incentive Program

- Full-time jobs created and paid 160% of Vermont minimum wage
- No limitations due to size, sector, or type of business that may apply
- Credit is a cash payment and not credit against income tax liability

Investment credit: None

Sales/use tax refund on qualified investment: None

Personal property tax abatement: None

Virginia

Job credit:

- The Major Business Facility Job Tax Credit (p. 4) allows qualified companies locating or expanding in VA to receive a $1,000-per-job tax credit for each new full-time job created
- Enterprise zones must meet 25-job threshold, other areas have a 50-job threshold

Investment credit:

- The Governor’s Opportunity Fund (p. 21) can be made available in highly competitive situations and requires minimum capital investment, job creation, and wage requirements with matching commitment from municipality
- Virginia Investment Partnership Grant (p. 22) is available for firms making at least $25 million in investment and maintaining stable employment levels
- Major Eligible Employer Grant (p. 22) available for firms investing at least $100 million and create at least 1,000 new jobs
Virginia Economic Development Incentive Grant (p. 23) available for firms who create 400 jobs paying at least 50% greater than local wage, or 300 jobs at double the local wage, in small metro areas, or 200 jobs elsewhere and make a capital investment of at least $5 million, or $6,500 per job

Sales/use tax refund on qualified investment: None

Personal property tax abatement: Offered at the local level for certain industries and types of equipment (p. 7)

Washington

Job credit: Firms in specific industries can receive a credit against business and occupation taxes when increasing in-state employment by 15%

Investment credit: None

Sales/use tax refund on qualified investment: Refunds available for materials used in aluminum smelters, cold storage, and construction materials for food manufacturing facilities

Personal property tax abatement: Available for aluminum smelting industry

West Virginia

Job credit:

- The High-Tech Manufacturing credit allows firms that manufacture computers and components that create at least 20 new jobs within a year to receive a credit to offset liability in a variety of tax programs
- The Corporate Headquarters Credit allows tax credits to a firm that relocates the headquarters to that state and creates 15 new jobs including the relocated employees
- The Economic Opportunity Credit allows a credit for firms creating at least 20 new jobs within specified time limits, or 10 new jobs for smaller businesses

Investment credit: The Manufacturing Investment Credit is allowed against up to 60% of corporate income tax based on qualified investment in eligible manufacturing property, with no new job creation required

Sales/use tax refund on qualified investment: None

Personal property tax abatement: Special real and personal property tax valuations are available to firms in specified NAICS industries
Wisconsin

**Job credit**: The Job Creation Deduction allows firms to subtract from federal income a number based on the increase in the number of FTE employees equal to $2,000 per eligible employee for businesses with gross receipts greater than $5 million and $4,000 per eligible employee with gross receipts less than $5 million. Also, a Jobs Tax Credit is available for those who are or intend to operate a business in Wisconsin which is capped at 10% of wages and training costs.

**Investment credit**: None

**Sales/use tax refund on qualified investment**: None

**Personal property tax abatement**: Firms must get state approval for M&E exemption – must be classified as a manufacturing firm

Wyoming

**Job credit**: None

**Investment credit**: None

**Sales/use tax refund on qualified investment**:

- $5 million investment required in capital infrastructure in addition to $2 million investment in data center equipment and software purchases results in a sales and use tax exemption on qualifying computer equipment
- $50 million infrastructure investment and $2 million in data center equipment purchases expands the sales tax exemption at this level to include computer equipment, uninterruptible power supplies, backup power, specialized heating, air purifying equipment, and air conditioning

**Personal property tax abatement**: None

Nebraska Advantage Rural Development Act Reporting Requirements

Neb Rev. Stat. § 77-27,195 provides:

(1) The Tax Commissioner shall prepare a report identifying the amount of investment in this state and the number of equivalent jobs created by each taxpayer claiming a credit pursuant to the Nebraska Advantage Rural Development Act. The report shall include the amount of credits claimed in the aggregate. The report shall be issued on or before July 15 of each year for all credits allowed during the previous calendar year. The Department of Revenue shall, on or before September 1 of each year, appear at a joint hearing of the Appropriations Committee of the Legislature and the Revenue Committee of the Legislature and present the report. Any supplemental information requested by three or more committee members shall be presented within thirty days after the request.

(2) Beginning with applications filed on or after January 1, 2006, except for livestock modernization or expansion projects, the report shall provide information on project-specific total incentives used every two years for each approved project and shall disclose

(a) the identity of the taxpayer,

(b) the location of the project, and

(c) the total credits used and refunds approved during the immediately preceding two years expressed as a single, aggregated total.

The incentive information required to be reported under this subsection shall not be reported for the first year the taxpayer attains the required employment and investment thresholds. The information on first-year incentives used shall be combined with and reported as part of the second year. Thereafter, the information on incentives used for succeeding years shall be reported for each project every two years containing information on two years of credits used and refunds approved. The incentives used shall include incentives which have been approved by the Department of Revenue, but not necessarily received, during the previous two calendar years.

(3) For livestock modernization or expansion projects, the report shall disclose

(a) the identity of the taxpayer,

(b) the total credits used and refunds approved during the preceding calendar year, and

(c) the location of the project.

(4) No information shall be provided in the report that is protected by state or federal confidentiality laws.
Nebraska Advantage
Rural Development Act
Summary Description

General Information

The Nebraska Advantage Rural Development Act requires a taxpayer involved in a qualifying business to file an application with the Nebraska Department of Revenue (Department). For a list of qualified business activities, click here. There are three different application levels under Nebraska Advantage Rural Development: Level 1; Level 2; and Livestock Modernization.

Application Information

An application may be filed on or after the first day of the tax year. The application requests the total amount of expected increase in investment and employment in the year the application is filed and the following tax year. There is a statutory limit on the total benefits that may be approved for a calendar year. The requested benefits are applied to the limit in the order in which the complete applications were filed.

- Application for Nebraska Advantage Rural Development Level 1
- Application for Nebraska Advantage Rural Development Level 2
- Application for Nebraska Advantage Livestock Modernization

For applications filed on or after October 1, 2009, taxpayers must utilize E-verify to confirm that all new employees are legally able to work in the United States, as required by Neb. Rev. Stat. § 77-27,188.03.

Requirements by Application Level

**Level 1.** Project applications under Level 1 require a plan of expansion that includes a minimum of two new full-time equivalent (FTE) employees who are paid at least the minimum required wage, and $125,000 of net, new investment. The expansion must occur in a county with a population of less than 15,000 inhabitants, a village, or an eligible census tract. Level 1 applications were first accepted for tax years beginning on or after January 1, 2006. For more information on the required wage rate and whether a location is eligible under Level 1, click here.

**Level 2.** Project applications under Level 2 require a plan of expansion that includes a minimum of five new FTE employees who are paid at least the minimum required wage, and $250,000 of net, new investment. The expansion must occur in a county with a population of less than 25,000 inhabitants, or a city of the second class. Level 2 applications were first accepted for tax years beginning on or after January 1, 2004. For more information on the required wage rate and whether a location is eligible under Level 2, click here.

**Livestock Modernization.** Livestock Modernization is defined as the construction, improvement, or acquisition of buildings, facilities, or equipment for livestock housing, confinement, feeding, production, and waste management. The project must have a net, new investment of at least $50,000. The expansion may occur in any county in Nebraska. There is no employment increase required. Livestock Modernization project applications were first accepted as of January 1, 2007.

Benefits by Application Level

**Level 1 and Level 2.** If the Level 1 or Level 2 taxpayer reaches and maintains the required levels of investment and employment, it is eligible for a $3,000 credit for each new FTE employee, and a $2,750 credit for each $50,000 net gain in qualified investment. The credits may be used: to obtain a refund of state sales and use taxes paid; against the income tax liability of the taxpayer; or as a refundable credit claimed on the income tax return of the taxpayer.

**Livestock Modernization.** If the Livestock Modernization taxpayer reaches and maintains the required level of investment, it is eligible to earn credits at 10% of investment. Each project is limited to a maximum of $30,000 in credits. The credits may be used: to obtain a refund of state sales and use taxes paid; against the income tax liability of the taxpayer; or as a refundable credit claimed on the income tax return of the taxpayer.

Nebraska Advantage
Microenterprise Tax Credit Act
Reporting Requirements

Neb. Rev. Stat. § 77-5907 provides:

The Tax Commissioner shall prepare a report identifying the following aggregate amounts for the previous calendar year:

1. The amount of projected employment and investment anticipated by taxpayers receiving tentative tax credits and the tentative tax credits granted;

2. The actual amount of employment and investment made by taxpayers that were granted tentative tax credits in the previous calendar year;

3. The tax credits used; and

4. The tentative tax credits that expired.

The report shall be issued on or before July 15, 2007, and each July 15 thereafter. The Department of Revenue shall, on or before September 1 of each year, appear at a joint hearing of the Appropriations Committee of the Legislature and the Revenue Committee of the Legislature and present the report. Any supplemental information requested by three or more committee members shall be presented within thirty days after the request. No information shall be provided in the report that is protected by state or federal confidentiality laws.
Nebraska Advantage Microenterprise Tax Credit Act
Summary Description

General Information

The Nebraska Advantage Microenterprise Tax Credit Act allows an individual actively involved in the day-to-day activities of a microbusiness, which is located in a distressed area, to apply for tax credits.

Application Process and Benefits Received

The individual actively involved in the microbusiness must file an application, which includes:

- A description of the microbusiness;
- The market to be served by the microbusiness and the way the expansion addresses the market;
- The amount of projected investment or employment increase that would generate the tax credit;
- The projected improvement in income or creation of new self-employment or other jobs in the distressed area;
- The nature of the applicant’s engagement in the microbusiness; and
- Other documents required by the Department.

Each individual, and any related parties, are limited to a $10,000 lifetime tax credit.

Applications requesting up to $2 million may be authorized for each calendar year.

The individual earns a refundable income tax credit equal to 20% of the microbusiness’ new investment or employment, not to exceed the amount of tentative tax credits approved based on the application. New investment is an increase in purchases of buildings and depreciable assets, repairs and maintenance, advertising, legal, or professional services in the year of application and the following year, as compared to the year prior to application. New employment is an increase in employee compensation and the employer cost of health insurance in the year of application and the following year, as compared to the year prior to application. The tax credit is claimed by individuals when filing their Nebraska income tax return.

Employment Criteria

The microbusiness must have five or fewer full-time equivalent (FTE) employees at the time of application to participate in the Nebraska Advantage Microenterprise Tax Credit Act. For applications filed on or after October 1, 2009, taxpayers must utilize E-verify to confirm that all new employees are legally able to work in the United States, as required by Neb. Rev. Stat. § 77-5908.

Location Criteria

The microbusiness must be located at a site which meets the statutory requirements related to population decline or per capita income level. For more specific information on whether a location is eligible for a new application, see the Department’s website.

Business Activity through 2014

The refundable credit earned by an applicant who is actively involved in a microbusiness is claimed on the individual’s Nebraska income tax return. Since individual income tax returns are filed after the calendar year is completed, there are no credits approved in 2014 for applications filed in 2014.

Reporting Requirements

Neb Rev. Stat. § 77-5807 provides:

Beginning July 15, 2007, and each July 15 thereafter the Tax Commissioner shall prepare a report stating the total amount of credits claimed on income tax returns or as refunds of sales and use tax during the previous calendar year.

The Department of Revenue shall, on or before September 1 of each year, appear at a joint hearing of the Appropriations Committee of the Legislature and the Revenue Committee of the Legislature and present the report. Any supplemental information requested by three or more committee members shall be presented within thirty days after the request.

No information shall be provided in the report that is protected by state or federal confidentiality laws.
General Information

The Nebraska Advantage Research and Development tax credit is available for tax years beginning on or after January 1, 2006. A business firm, which incurs research and development expenditures, is eligible for a Nebraska tax credit. If the firm does business within and without Nebraska, the federal tax credit must be apportioned before calculating the Nebraska tax credit.

No business firm may claim the credit for the first time in a tax year beginning after December 31, 2017.

Description of Benefits

When the research and development credit started in 2006, the credit was available to a business firm for four years after the first year it was claimed. For tax years beginning on or after January 1, 2012, a business firm can claim the research and development credit for 20 tax years immediately following the first tax year since 2006 that the research and development credit was claimed. For certain business firms, there may be one or more tax years between the end of the first five years and the tax year beginning on or after January 1, 2012 for which the business firm will not be able to earn research and development credit.

**Tax Year 2006.** A business firm which incurs research and development expenditures, as defined in § 174 of the Internal Revenue Code (I.R.C.), may claim a tax credit equal to 3% of the increase in Nebraska research and development expenditures in the current year, as compared to the average of the expenditures in the two years prior to first claiming the tax credit.

**Tax Years 2007 and 2008.** A business firm which incurs research and development expenditures, as defined in § 174 of the I.R.C., may claim a credit equal to 15% of the federal tax credit allowed.

**Tax Years 2009 and Later.** A business firm which incurs research and development expenditures, as defined in § 174 of the I.R.C., may claim the enhanced research credit of 35% for research activity on the campus of a college or university in Nebraska, and a credit equal to 15% of the federal tax credit allowed for activities that are not on-campus.

For credits claimed in a tax year beginning on or after January 1, 2009, taxpayers must utilize E-verify to confirm that all new employees are legally able to work in the United States, as required by Neb. Rev. Stat. § 77-5808.
The tax credit may be used:

- To obtain a refund of state sales and use taxes paid;
- Against the income tax liability of the taxpayer; or
- As a refundable credit claimed on the income tax return of the taxpayer.

Summary Description

Agreement Signed in 2014 and Agreements Still in Effect

Summary of Qualified Project Activity

Industry Group Detail:

- Industry Sector Codes and Application Option of Projects with Active Signed Agreements
- Qualified Projects by Industry (Cumulative through 2014)
- Analysis of Tax Credits (2014 and Cumulative through 2014)
- Analysis of Sales and Use Tax Refunds (2014 and Cumulative through 2014)
- Analysis of Sales and Use Tax Refunds - Approved Refunds Net of Recapture
- Investment in Qualified Property
- Number of FTE Jobs Created
- Total Number Employed by Qualified Taxpayers (2014)
- Average Wage of New Employees (2014 and Cumulative through 2014)
- Estimate of Personal Property Value Exempted (2014 and Cumulative through 2014)
- Projected Revenue Gains and (Losses) for Tax Years 2015-2024
This page intentionally blank.
Employment and Investment Growth Act Reporting Requirements

Neb. Rev. Stat. § 77-4110 provides:

(1) The Tax Commissioner shall submit electronically an annual report to the Legislature no later than July 15 of each year. The Department of Revenue shall, on or before September 1 of each year, appear at a joint hearing of the Appropriations Committee of the Legislature and the Revenue Committee of the Legislature and present the report. Any supplemental information requested by three or more committee members shall be presented within thirty days after the request.

(2) The report shall list

(a) the agreements which have been signed during the previous calendar year,
(b) the agreements which are still in effect,
(c) the identity of each taxpayer, and
(d) the location of each project.

(3) The report shall also state by industry group

(a) the specific incentive options applied for under the Employment and Investment Growth Act,
(b) the refunds allowed on the investment,
(c) the credits earned,
(d) the credits used to reduce the corporate income tax and the credits used to reduce the individual income tax,
(e) the credits used to obtain sales and use tax refunds,
(f) the number of jobs created,
(g) the total number of employees employed in the state by the taxpayer on the last day of the calendar quarter prior to the application date and the total number of employees employed in the state by the taxpayer on subsequent reporting dates,
(h) the expansion of capital investment,
(i) the estimated wage levels of jobs created subsequent to the application date,
(j) the total number of qualified applicants,
(k) the projected future state revenue gains and losses,
(l) the sales tax refunds owed to the applicants,
(m) the credits outstanding, and
(n) the value of personal property exempted by class in each county.

(4) No information shall be provided in the report that is protected by state or federal confidentiality laws.
Employment and Investment Growth Act
Summary Description

General Information
The Employment and Investment Growth Act (LB 775) allows a taxpayer involved in a qualified business to earn and use benefits for investment and employment growth. For a list of qualified and non-qualified business activities, see the Department’s website. There are three options that have varying requirements for investment and employment and for benefits.

Application Information
No new Employment and Investment Growth Act applications could be filed after December 31, 2005.

Application Options
Each of the options requires a stated increase in the investment and employment levels by the end of the attainment period.

The increase in investment is equal to the value of qualified property placed in service at the project after the date of application. Qualified property means any tangible property of a type subject to depreciation, amortization, or other recovery under the Internal Revenue Code of 1986, or the components of such property, that will be used at the project. Qualified property does not include aircraft, barges, motor vehicles, railroad rolling stock, watercraft, or property rented to another person.

The increase in employment is equal to the number of new full-time equivalent (FTE) employees at the project. The number of new FTE employees is the number of FTE employees at the project during a year, less the FTE employees during the base year. One FTE employee is equal to 40 hours per week for the entire year. A taxpayer in a qualified business may file an application electing one of the following options:

- $20 Million in Investment
- $3 Million in Investment and 30 FTE Employees.
- $10 Million in Investment and 100 FTE Employees. A taxpayer applying under this option has a two-part agreement. When the project attains the minimum required levels of $3 million investment in qualified property and 30 FTEs, the project is eligible for all benefits of a $3 million and 30 FTE project. When the project attains the $10 million and 100 FTEs, the taxpayer is also eligible for certain property tax exemptions.

Description of Time Periods:

Year
Year means the federal taxable year of the taxpayer.

Base Year
The base year is the year immediately preceding the year during which the application was filed.
**Attainment Period**

The attainment period is the number of years, including the year of application, in which the taxpayer must meet the minimum levels of investment and employment required for benefits. All options must meet the minimum required levels within seven years.

**Entitlement Period**

The entitlement period is the time period within which the taxpayer generally can both earn and use incentives. This period includes the year the taxpayer meets the minimum chosen levels of investment and employment, and the next six years.

**Carryover Period**

During the carryover period, no additional credits are earned, but unused credits earned before the end of the entitlement period may be used. The carryover period begins the year after the end of the entitlement period and ends at the end of the eighth year after the entitlement period.

See the website to view sample time lines.

**Direct Refund**

A direct refund is the refund of Nebraska and local sales and use taxes paid on the purchase of qualified property for use at the project, or on the purchase or lease of aircraft for use in connection with the project, which is placed in service during the attainment and entitlement periods. The aircraft may not be used to transport an elected official, or for fundraising for an elected official.
Qualified property is any tangible property of a type subject to depreciation, amortization, or other recovery under the Internal Revenue Code of 1986, or the components of such property, that will be used at the project. Qualified property does not include aircraft, barges, motor vehicles, railroad rolling stock, watercraft, or property that is rented to another person.

**Investment Credit**

Investment credit is a credit equal to 10% of the investment made in qualified property at the project during the attainment or entitlement periods. The credit on qualified property placed in service, from date of application through the end of the tax year in which the minimum required levels are met, is earned in the qualification year. A credit is also earned on qualified property placed in service in other years of the entitlement period.

Investment credits may be used for a sales and use tax refund or an income tax refund.

**Compensation Credit**

For each year of the entitlement period, the compensation credit is equal to 5% times the increase in compensation at the project. The increase in compensation is equal to the taxable compensation of resident employees and base-year employees at the project in the current year minus the average compensation at the project in the year times the number of base-year employees.

The compensation credit may be used for a sales and use tax refund or an income tax refund.

**Personal Property Tax Exemption**

A taxpayer may claim a personal property tax exemption on three types of property acquired after the date of application:

1. Turbine powered aircraft;
2. Computer systems and specific peripherals that require environmental controls of temperature and power; and
3. Business equipment involved directly in the processing of agricultural products.

Turbine powered aircraft may be exempted from the first January 1 following the date of acquisition of the property through the sixteenth December 31 after the filing of the application. The aircraft may not be used to transport an elected official, or for fundraising for an elected official.

The computer systems and peripherals and agricultural processing equipment may be exempted from the first January 1 following the end of the year during which the required levels were exceeded through the sixteenth December 31 after the filing of the application.

**Sales and Use Tax Refund**

This is a refund of Nebraska and local sales and use taxes paid on otherwise non-refundable purchases used at the project. The credits must be earned in a prior tax year and can be used during the entitlement and carryover periods.

**Income Tax Refund**

Credits may be used to reduce the income tax liability of the taxpayer's entire unitary group. The credits may be used in the year earned and are available during the entitlement and carryover periods.

Credits earned by a partnership, limited liability company, a subchapter S corporation, or an estate or trust may be distributed in the same ratio as income. The recipient of the distributed credit may use the credit to reduce their income tax liability from the year of distribution through the end of the carryover period.

</table>

1. If a company fails to maintain either the minimum employment or investment required by its agreement, one-seventh of the refunds and one-seventh of the credits used are recaptured, and one-seventh of the credit carryover at the end of the entitlement period is recaptured for each year the company is below the required levels. Through December 31, 2014, 94 projects were in recapture.

2. **Tax Credits Outstanding** = Tax Credits Earned less Tax Credits Used, Recapture from Credits, and Tax Credits Expired

3. To maintain confidentiality, direct sales/use tax refunds on aircraft are not separately stated.
The major industry group titles have been updated to reflect the North American Industry Classification System (NAICS) description of each numerical industry sector or subsector code. Only the group titles have changed. The primary business activities within each group, and the classification of all projects, remain the same as prior reports.

<table>
<thead>
<tr>

<sup>1</sup>To maintain confidentiality, the following industry groups are combined in Non-durable Products Manufacturing:

- 311, 312 - Food and Beverage Manufacturing
- 314, 322, 323, 325, 326 - Textile Product Mills; Paper Manufacturing; Printing and Related Support Activities; Chemical Manufacturing; and Plastics and Rubber Products Manufacturing

<sup>2</sup>To maintain confidentiality, the following industry groups are combined in Durable Products Manufacturing:

- 22, 23, 327 - Utilities; Construction; and Nonmetallic Mineral Product Manufacturing
- 321, 331, 332 - Wood Product, Primary Metal, and Fabricated Metal Product Manufacturing
- 333, 334, 335, 336, 337, 339 - Machinery; Computer and Electronic; Electrical Equipment, Appliance, and Component; Transportation Equipment; Furniture and Related Product; and Miscellaneous Product Manufacturing

<sup>3</sup>To maintain confidentiality, the following industry groups are combined in Non-manufacturing:

- 42 - Wholesale Trade
- 48, 49 - Transportation and Warehousing Services
- 51 - Information Services
- 52 - Finance and Insurance Services
- 54, 56, 62, 81 - Professional, Scientific, and Technical; Administrative, Support, Waste Management, and Remediation; Health Care; and Other Services

<sup>4</sup>The estimated average wage is calculated by multiplying positive FTE growth by the average wage of each project to determine the estimated compensation. The sum of estimated compensation for all projects in the industry group is divided by the total positive FTE growth of the industry group.
Property Tax Benefit

When a company applies for LB 775 benefits under the $10 million investment and 100 FTE option, a personal property tax exemption is available for:

- Turbine-powered aircraft used in connection with the project.

The Department conducts qualification audits to verify that the companies have met the minimum of $10 million investment and 100 FTEs to qualify for the property tax exemption on the following property used in connection with the project:

- Computer systems, plus certain peripheral components connected to such computers; and
- Personal property, which is business equipment located in a single project involved directly in the manufacture or processing of agricultural products.

The following tables show the value of personal property exempted for 2014, and cumulatively for tax years 1988-2014.

**Estimate of Personal Property Value Exempted by Class in Each County (Tax Year 2014)**

Personal Property Exemption by County
(Cumulative for Tax Years 1988-2014)
Employment and Investment Growth Act, Quality Jobs Act, and Invest Nebraska Act
Projected Revenue Gains and (Losses) for Tax Years 2015-2025

Reporting Required by Neb. Rev. Stat. § 77-4110(3)(k)

In this report on the Employment and Investment Growth Act, Quality Jobs Act, and Invest Nebraska Act, the Nebraska Department of Revenue (Department) Research Section presents the projected future amounts of:

- Direct refunds of sales and use tax (refunds);
- Tax credits earned;
- Tax credits used;
- Tax credits recaptured; and
- Tax credits that will expire.

The report also measures the potential revenue gains (losses) under the Employment and Investment Growth Act (LB 775) as well as associated investment and economic job growth.

Section I outlines the process of estimating the parameters for tax credits and refunds, which are the building blocks for projecting future tax expenditures. Section I also briefly describes the estimation process for tax credits earned and the usage of the tax credits.

Section II discusses the model used by the Department to estimate the fiscal and employment impacts of LB 775, and these estimates are present in the table below.

I. Estimation of parameters for the projection of the tax credit.

Using historical LB 775 data, the Department analyzed patterns of how companies earned and used tax credits over the years and estimated the parameters using the pattern of how companies both earned and used tax credits. These parameters estimate the distribution of tax credits earned and used over the entitlement and carryover periods. These parameters are the building blocks of projecting future tax expenditure on tax credits. The parameters the Department measured are:

- Annual rate of attainment;
- Annual rate of tax credits earned;
- Annual rate of refunds;
- Annual rate of tax credit usage on income tax; and
- Annual rate of tax credit usage on sales and use taxes.

The parameters were estimated using data from 1995 to 2005 — a period in which the program had progressively matured and the economy was, overall, in a stable condition. The selection of the time period allowed the Department to avoid any possible bias caused by extreme values.

Due to the fact that LB 775 is no longer accepting new projects and no longer allows tax credits to be earned after 2017, the amount of tax credits earned over the period will be limited. Using the parameters discussed
above and actual data from the LB 775 program, the Department projected the amount of tax credits earned and the direct refund of sales and use taxes through 2017 in the table below.

The Department estimated an annual amount of total tax credits used based on projected tax credit balances and then separated the total amount into two tax credit usage components: (1) tax credit usage on income tax; and (2) tax credit usage on sales and use taxes. The ratio of tax credit usage between income tax and sales and use taxes was derived from historical LB 775 data.

Then, the Department estimated the amount of tax credits that would be recaptured annually from 2015 to 2025, using the total amount of estimated tax credit balances for each year and the estimated annual rate of recaptured tax credits. Since the program will terminate in 2025, the tax credit balance in 2025 will be 0.

The estimation of expired credits was done using the same method as the recaptured credits.

II. Projecting revenue gains (losses) and associated economic job growth.

Tax incentive programs in Nebraska are designed to attract business investments—both domestically and abroad—with the goal of creating jobs and boosting economic growth in Nebraska. Tax incentive programs impact Nebraska’s tax revenue in two ways. First, tax revenue is positively affected when businesses hire new employees and increase levels of investment, which enhance economic growth. Second, tax revenue is negatively affected when Nebraska directly foregoes part of the tax revenue from the businesses that are in the tax incentive programs. Thus, the overall fiscal impact of tax incentive programs can be positive or negative.

A computable general equilibrium (CGE) model uses actual economic data to estimate how an economy might react to changes in policy, technology, or other external factors. Using a CGE model, the fiscal impact of the program is estimated over the next ten years. These estimates are based on the forecasted value of the amount of total tax credits earned and total tax credits used, along with refunds for LB 775. The forecasted values for tax credits earned and tax credits used are listed in the table below.

To analyze the fiscal impact of the tax incentive programs, the dynamic Tax Revenue Analysis in Nebraska (TRAIN) model—a custom-built Nebraska CGE model—is used. The TRAIN model mathematically expresses the Nebraska economy with over 1,300 equations and a Social Accounting Matrix (SAM) database. It has 28 industrial sectors, two factor sectors, an investment sector, nine household sectors, 33 government sectors, and a rest-of-the-world sector.

The TRAIN model distinguishes between state government sectors to capture the sensitivity of state revenue and expenditure flows. It also calculates most tax impacts within the model, making additional, outside calculations unnecessary. This reduces the number of restrictions on the model and allows the Department's economists to deliver more informative results.

The critical assumption when constructing a CGE model is that the economy is in equilibrium at the beginning of the period. Therefore, the model is constructed so that its equilibrium replicates observed data in the base year. The data for TRAIN comes from the latest SAM values and parameters. The impact inputs for the model are the projected tax credits earned and direct sales and use tax refunds by companies in the tax incentive program.

The table below shows estimated revenue gains generated by new investment and the net revenue gain (loss). The table provides two estimates of employment due to LB 775. The first, labeled “Estimated New Jobs for Qualifying Tax Credits,” is a yearly estimate of the number of full-time equivalent employees (FTE). This number can be thought of as an accounting number. It is the number of jobs that businesses use to justify the hiring of employees to qualify for the tax credit in LB 775. It is important to note that some of these new jobs would be created regardless of LB 775 due to growth in the company. Thus, the exact number of jobs that would be created without the existence of LB 775 is unknown.
The second estimate, labeled “Estimated Net Economic Job Increase (Decrease),” is estimated by TRAIN, and is an estimate of the total number of new jobs created as a result of the LB 775 program’s investment. The estimate of net economic jobs includes both direct and indirect employment in Nebraska. That is, it includes the jobs created as a direct result of the programs as well as the new jobs indirectly created throughout the Nebraska economy to support the new investment and direct employment due to LB 775.

1 A more detailed description of the TRAIN model is available on the Department’s website.

Invest Nebraska Act (LB 620)

Reporting Requirements
Summary Description
Active Signed Agreements
Invest Nebraska Activity
This page intentionally blank.
Invest Nebraska Act
Reporting Requirements

Neb. Rev. Stat. § 77-5542 provides:

(1) The Department of Revenue shall submit electronically an annual report to the Legislature no later than July 15 each year. The report shall list

(a) the agreements which have been signed during the previous calendar year,

(b) the agreements which are still in effect,

(c) the identity of each company, and

(d) the location of each project

The Department of Revenue shall, on or before September 1 of each year, appear at a joint hearing of the Appropriations Committee of the Legislature and the Revenue Committee of the Legislature and present the report. Any supplemental information requested by three or more committee members shall be presented within thirty days after the request.

(2) The report shall also state by industry group

(a) the amount of wage benefit credits and investment tax credits allowed under the Invest Nebraska Act,

(b) the number of direct jobs created at the projects,

(c) the amount of direct capital investment under the act,

(d) the estimated wage levels of jobs created by the companies at the projects,

(e) the estimated indirect jobs and investment created on account of the projects, and

(f) the projected future state and local revenue gains and losses from all revenue sources on account of the direct and indirect jobs and investment created on account of the project.

(3) No information shall be provided in the report that is protected by state or federal confidentiality laws.
General Information

The Invest Nebraska Act (LB 620) allows a qualified business to receive a wage benefit credit, or an alternate investment credit. The Invest Nebraska Act required a separate application subject to approval by the Invest Nebraska Board. The members of the board were the Governor, the State Treasurer, and the chairperson of the Nebraska Investment Council.

Application Information

No new applications could be filed after June 1, 2005.

Requirements by Application Level

There were three levels that qualified businesses could choose from:

- $10 million in investment in qualified property and at least 25 new full time equivalent (FTE) employees whose annual wage exceeds the Nebraska average annual wage. This option is only available for projects located outside of counties with 100,000 or more in population.
- $50 million in investment in qualified property and at least 500 new FTE employees, OR $100 million in investment and at least 250 new FTE employees. The new employees’ annual wage must exceed 110% of the Nebraska average annual wage.
- $200 million investment in qualified property and at least 500 new FTE employees, whose annual wage exceeds 120% of the Nebraska average annual wage.

Description of Benefits

A company that reaches and maintains the selected levels is eligible for benefits. An eligible company earns a wage benefit credit from zero to five percent of the taxable wages paid to new employees earning more than the required wage level. A company selecting the $200 million and 500 FTE option may receive, in lieu of a wage benefit credit, an alternate investment tax credit of 15 percent of the investment.

The company is to expend at least the value of the wage benefit credit, or alternate investment tax credit, for company training programs, employee benefit programs, educational institution training programs, or workplace safety programs.

The agreement specifies the option elected and the available benefits. The wage benefit credit and the alternative investment tax credit may be used for up to 100% of the income tax liability. The wage benefit credit may also be used to retain a portion of the taxpayer's employer payroll withholding tax liability.

Activity as of December 31, 2013

Credits were allowed under LB 620; however, to maintain confidentiality, information is reported cumulatively for 2010-2013. No 2014 information is included due to the small number of companies reporting.

(a) the agreements which have been signed during the previous calendar year,

(b) the agreements which are still in effect,

(c) the identity of each company, and

(d) the location of each project

The department shall, on or before September 1 of each year, appear at a joint hearing of the Appropriations Committee of the Legislature and the Revenue Committee of the Legislature and present the report. Any supplemental information requested by three or more committee members shall be presented within thirty days after the request.

(2) The report shall also state by industry group

(a) the amount of wage benefit credits and investment tax credits allowed under the Quality Jobs Act,

(b) the number of direct jobs created at the projects,

(c) the amount of direct capital investment under the act,

(d) the estimated wage levels of jobs created by the companies at the projects,

(e) the estimated indirect jobs and investment created on account of the projects, and

(f) the projected future state and local revenue gains and losses from all revenue sources on account of the direct and indirect jobs and investment created on account of the project.

(3) No information shall be provided in the report that is protected by state or federal confidentiality laws.
Quality Jobs Act
Summary Description

General Information

The Quality Jobs Act (LB 829) allowed a qualified business to receive a wage benefit credit, or retain payroll withholding tax. The Quality Jobs Act required a separate application subject to approval by the Quality Jobs Board. The members of the board were the Governor, the State Treasurer, and the chairperson of the Nebraska Investment Council.

Application Information

No new Quality Jobs Act applications could be filed after February 1, 2000.

Requirements by Application Level

There were two levels that qualified companies could choose from:

- $50 million investment in qualified property and at least 500 new full time equivalent (FTE) employees hired; and
- $100 million in investment in qualified property and at least 250 new FTE employees hired.

Description of Benefits

A company that reached and maintained the selected levels was eligible for a wage benefit credit. The company was to expend at least the value of the wage benefit credit for company training programs, employee benefit programs, educational institution training programs, or workplace safety programs. The company’s agreement specifies whether the election has been made to use the credit against the company’s income tax, or to retain a portion of the taxpayer’s employer’s payroll withholding tax liability as designated by the employees.

Activity as of December 31, 2013

Credits were allowed under LB 829; however, to maintain confidentiality, no information is reported.
