Computation of 2013 Credit for Prior Year Minimum Tax to Determine Nebraska Minimum Tax Credit for the 2013 Nebraska Return

Issue
How should the credit for prior year minimum tax computed for a taxpayer’s 2013 U.S. Individual Income Tax Return, Federal Form 1040, be recalculated to compute the Nebraska tax credit?

Conclusion
The federal credit for prior year minimum tax must be recomputed using the adjustments required by Neb. Rev. Stat. § 77-2715(2). This allows for the computation of items which are reflected differently in the determination of federal taxable income for Nebraska purposes. This applies to any federal schedules or other forms, the results of which are used in calculating the federal alternative minimum tax.

Analysis
The specific line entries and the required adjustments in recomputing the credit for prior year minimum tax for the 2013 Nebraska Individual Income Tax Return, Form 1040N, are provided below. Recalculate all total or computational lines to reflect adjustments made pursuant to this ruling.
If you have a 2013 tax year alternative minimum tax liability, a credit for prior year alternative minimum tax is not allowed.
Use the amounts from the 2012 Federal Form 6251 (Alternative Minimum Tax - Individuals) recomputed pursuant to Revenue Ruling 22-12-1 on all lines referencing the 2012 Federal Form 6251.

2013 Federal Form 8801 (Credit for Prior Year Minimum Tax - Individuals, Estates, and Trusts):
Part I —

• Line 3. Enter the minimum tax credit net operating loss deduction as adjusted for Nebraska purposes.
• Line 11. If Part III of Form 8801 was used to make the line 11 entry, exclude any capital gains in the calculation that were entered on line 59 of Schedule I of the 2013 Nebraska Form 1040N.
• Line 12. Enter -0-.

Follow federal instructions to recompuete the net minimum tax on exclusion items through line 15 of the 2013 Federal Form 8801.
