Translation by (check one):
 Commercial EDI Software Online Filing (Motor Fuels Use Tax and Compressed Fuel Tax only)
 Internally Created Software from Nebraska EDI Implementation Guide

EDI Email Contact Address (if different from line 9)

Pursuant to the provisions of [Neb. Rev. Stat. § 66-718](#), applicant agrees as follows:

The signature of the taxpayer or authorized agent is deemed to appear on electronically filed reports or returns. All reports and returns filed electronically by the taxpayer are truthful, accurate, and complete statements made under penalty of perjury. The taxpayer's electronically filed reports and returns are in a form and manner compatible with the State of Nebraska, Department of Revenue's equipment, software, facilities, and electronic filing standards. Any electronic filing not in conformity is considered a failure to file the report or return and the taxpayer will be subject to all applicable penalties prescribed by law. The taxpayer is responsible for all costs associated with the transmission of electronically filed reports and returns. The place of performance pursuant to this application shall be Lincoln, Nebraska.

Nebraska Motor Fuels Licenses

Below are descriptions of the various Nebraska motor fuels programs that may affect your business. Learn more in the information guide titled [Nebraska Motor Fuels Tax Laws General Information](#) available at revenue.nebraska.gov/motor-fuels.

Every person owning or possessing motor fuels in Nebraska for distribution, sale, delivery in Nebraska, or export from Nebraska must have the appropriate license from the Nebraska Department of Revenue (DOR) before conducting business. If related entities are applying for motor fuels licenses, a separate application must be completed for each Federal Employer ID Number.

All licenseholders must file their tax returns following DOR's electronic filing requirements (see "[Electronic Filing](#)" on DOR's website). Additionally, taxpayers with annual payments in excess of mandated thresholds are required to make payments electronically.

Types of Licenses

Motor Fuels. Motor fuels include gasoline, gasohol, ethanol, natural gasoline, undyed diesel, biodiesel, biodiesel blends, and dyed diesel. Before a license is issued, the applicant must provide a surety bond for at least the first year of the license. Attach the [Nebraska Motor Fuels Tax Bond, Form 70](#), available on DOR's website. The Motor Fuels Tax license will be issued using the highest level of operation.

- **Supplier.** Any person who owns fuel in a Nebraska pipeline terminal facility.
- **Distributor.** Any person who purchases fuel from a supplier at a pipeline terminal facility, or from a producer at an ethanol or biodiesel production facility.
- **Importer.** Any person who owns fuel at the time it is imported into Nebraska via truck or railcar.
- **Wholesaler.** Any person who purchases tax-free fuel from a licensed distributor or importer for resale purposes. The wholesaler license is optional. To purchase fuel tax free, a license must be held, but the person may choose to purchase fuel tax paid and hold a retailer's license.
- **Exporter.** Any person who obtains fuel from a Nebraska pipeline terminal, an ethanol or biodiesel production facility, or other bulk storage facility **exclusively** for use or resale in another state.

Aircraft Fuels. Aircraft fuels include aviation gasoline and jet fuel. A Form 70 must be provided to obtain an Aircraft Fuels Tax license. The license will be issued using the highest level of operation. Please refer to the levels of operations listed under Motor Fuels.

Petroleum Release Remedial Action Fee (PRF). Any person who is licensed for motor fuels, aircraft fuels, or as a producer is automatically licensed for PRF.

Producer. A producer is any person who manufactures agricultural ethyl alcohol (ethanol) or biodiesel at an ethanol or biodiesel facility located in Nebraska. A surety bond is required for at least the first year of operation. Attach a completed Form 70 to the application.

Compressed Fuel Retailer. A compressed fuel retailer is any person who sells compressed fuel (for example, propane and compressed natural gas) and has equipment capable of dispensing compressed fuel into motor vehicles. These persons must obtain a Nebraska Compressed Fuel Retailer License. If there is more than one location, all locations must be indicated on the application. Only one license will be issued regardless of the number of locations from which compressed fuel is sold. Compressed fuel retailer licensees must maintain a surety bond for the first year of the new license. A completed Form 70 must be mailed with this application.

Liquid Fuel Carrier. A liquid fuel carrier is any person who transports liquid motor fuels into, within, or out of Nebraska. This includes fuel transported by tanker, tank wagon, or other type of vehicle. Carriers of liquid motor fuels must be licensed, but are not required to file monthly reports. Please refer to the [Nebraska Liquid Fuel Carriers Information Guide](#) for details.

Motor Fuels Retailer. A motor fuels retailer is an operator of locations where retail sales of motor fuels and aircraft fuels are made to end users. All motor fuels retailers must obtain a Nebraska Retailer License for each location. If there is more than one location, all locations must be indicated on the application.

Tank wagon operators conducting retail sales of motor vehicle fuels, aircraft fuels, or diesel fuels without a permanent retail location in Nebraska must also be licensed as a motor fuels retailer. An applicant who does not have a permanent retail location in Nebraska should contact DOR for additional guidance in completing the information in Box 20.

To license **additional retail locations**, complete lines 1 through 5 and 20 on Form 20MF. Please include any other information that has changed.

Retailers of tax-paid motor vehicle fuels, diesel fuels, and aircraft fuels, and retailers of dyed diesel must be licensed, but are not required to file monthly reports. Records are subject to review or audit. Please refer to the [Nebraska Motor Fuels Retailers and Compressed Fuel Retailers Information Guide](#) for details.

Motor Fuels Use Tax. Motor Fuels Use Tax is due on untaxed fuel used in licensed motor vehicles, including the following:

- ❖ Dyed diesel used by Nebraska governmental entities in licensed motor vehicles;
- ❖ Blending agents added to taxable fuel by motor fuels retailers or consumers;
- ❖ Compressed fuel, such as compressed natural gas, used in a licensed motor vehicle on which the vendor did not collect the Nebraska fuel tax; and
- ❖ Inventory fuel gains.

Terminal Operator. A terminal operator is any person who owns or operates a pipeline terminal facility in Nebraska.

License Refusal

Licenses may be refused to any person:

- ❖ Who previously had a motor fuels permit or license suspended or canceled for cause in any state;
- ❖ Who is a subterfuge for the real party in interest whose permit or license has been suspended or canceled for cause;
- ❖ Who has a partner, limited liability company member, or shareholder, with a 10% or larger ownership interest, who is unable to obtain a license or permit in his or her own name;
- ❖ Who is not in compliance with requirements of the State Fire Marshal regarding underground storage tanks;
- ❖ Who is not in compliance with the Department of Agriculture regarding weights and measures;
- ❖ Who has been convicted of a felony in the last ten years; or
- ❖ Upon other sufficient cause being shown.

Before a license is refused, the applicant will be offered a hearing.
