## Instructions

**Who Must Make Estimated Payments.** Every partnership that elected to be subject to Nebraska income tax must make estimated income tax payments if its Nebraska income tax liability can reasonably be expected to exceed allowable credits by \$400 or more.

Partnerships that do not elect to be subject to Nebraska income tax, may make voluntary estimated payments in the same manner as other partnerships. Estimated payments made by these partnerships are treated as income tax withholding on behalf of the partners.

**When to Make Estimated Income Tax Payments.** Estimated income tax installments are due by the 15th day of the 4th, 6th, 9th, and 12th months of the tax year. The estimated income tax may be paid in full with the first installment, or paid in equal installments on each due date.

If you miss a payment of estimated income tax, or if you made a mistake which caused an underpayment in earlier installments, make an immediate “catchup” payment with your next installment payment.

**Methods of Payment.** Some partnerships are required to make their partnership payments electronically. A partnership with an electronic payment mandate from the Nebraska Department of Revenue (DOR) must make all estimated income tax payments using one of the electronic methods outlined below. All partnerships are encouraged to make their estimated income tax payments electronically.

### Electronic Payment Options

**Electronic Funds Withdrawal (EFW).** With this payment option, you provide your payment information within your electronically-filed return. Your payment will automatically be withdrawn from your bank account on the date you specify.

**Nebraska e-pay.** Nebraska e-pay is DOR’s web-based electronic payment system. You enter your payment and bank account information, and choose a date (up to a year in advance) to have your account debited. You will receive an email confirmation for each payment scheduled.

**ACH Credit.** You (or your bank) create an electronic file in the appropriate ACH file format. It is submitted to the Federal Reserve and instructs your bank to “credit” the state’s bank account.

**Nebraska Tele-pay.** Nebraska Tele-pay is DOR’s phone-based electronic payment system. Call 800-232-0057, enter your payment and bank account information, and choose a date (up to a year in advance) to have your account debited. You will receive a confirmation number at the end of your call.

**Cancel a Payment.** To cancel a scheduled EFW payment, contact our Taxpayer Assistance office at 800-742-7474 or 402-471-5729 before 4:00 pm Central Time two business days prior to your scheduled payment date. You may cancel a payment scheduled through Nebraska e-pay by logging into the e-pay program from our website and selecting “cancel payment.”

**Check or Money Order.** If you are not using one of the electronic payment options described above, include a check or money order payable to the Nebraska Department of Revenue with the payment voucher. Checks written to DOR may be presented for payment electronically.

### Calculating the Amount of Each Installment.

1. Partnerships complete the 2024 Nebraska Partnership Estimated Income Tax Worksheet. If line 5 is less than \$400, estimated income tax payments are not required.
2. Complete the appropriate payment voucher. The amount of any overpayment from last year may be applied in full or in part to any estimated income tax payment installment if the partnership:
  - Had an overpayment on the [2023 Nebraska Partnership Return of Income, Form 1065N](#); and
  - Elected to apply the overpayment to the 2024 estimated income tax.

**Changes in Estimated Income Tax.** If the partnership's income increases substantially, or if the partnership's estimated income tax changes substantially for another reason, it may be required to amend its estimated income tax. Use the Amended Computation schedule to calculate the amended estimated income tax and use the amended amounts on the next payment voucher.

**Penalty For Not Paying Enough Estimated Income Tax.** A penalty is due on partnerships for underpayment of estimated income tax installments. An underpayment exists when the estimated income tax payments plus allowable credits are less than the income tax liability. The penalty is not due if the partnership qualifies for any of the methods that avoid penalty listed on the [Partnership Underpayment of Estimated Income Tax, Form 2230N](#).

Each partnership with an underpayment of estimated income tax must file a Form 2230N with its Nebraska Partnership Return of Income, Form 1065N.

### 2024 Nebraska Estimated Income Tax Rate.

Partnerships - 5.84% on all Nebraska taxable income.
